

# ROCKSHOX: Motion Control DNA3

Two Versions:

RLT3 - rebound, lockout,  
threshold, 3 positions

RL3 - rebound, lockout, 3  
positions

# ROCKSHOX: Motion Control DNA3

How it works:  
Three distinct modes are  
acheived with a custom  
designed valve and valve  
body.

# ROCKSHOX: Motion Control DNA3

How it works:  
A custom designed valve  
and valve body

Open - All three ports  
flow oil

# ROCKSHOX: Motion Control DNA3

How it works:  
A custom designed valve  
and valve body

Platform - only the small  
port flows to create a  
firm, platform feel

# ROCKSHOX: Motion Control DNA3

How it works:

A custom designed valve  
and valve body

Lock - All three ports are  
shut off, blow-off is  
controlled by the spring  
tube and poker height  
(adjustable blow-off on  
RLT3 model)
