

brose Drive System

Before contact the BMZ Service Center, please do following:

1. Check the battery and build it in the bike again.
(take it out and switch it on, LEDs run up and after about 30 seconds the battery switches off again).
2. Check the News and documentation in the service tool.

3. Switch on the e-bike
4. Connect the Display with the USB cable to the PC.
5. Make a new connection via the Service Tool.
6. Make the updates.
7. Export Product data as a .pdf

8. Cross-exchange to perform and make a test drive.
9. If present, note the error code.

cs.brose@bmz-group.com

3. For inquiries use the ticket number.
