SCOTT
EST. 1958
TECHNICAL SERVICES

DEAR DISTRIBUTORS AND COLLEAGUES,

Please take some time to familiarize yourself with our new Bike Techbook MY22 which will support you in your service work.

The SCOTT Group Quality Management Team: Moritz Scheuplein, Patrick Bochud, Stuart Sanders, Gareth Clutton, Victor Rinne, Hampus Rinne, Bryson Castillo, and Gerrit Mueller will be working with you on warranty claims, quality problems, and technical support.

Distributors please use only eu.qm@scott-sports.com for all enquiries.

Subsidiaries please write to all of us as before using the below email addresses.

moritz.scheuplein@scott-sports.com

patrick.bochud@scott-sports.com

stuart.sanders@scott-sports.com

gareth.clutton@scott-sports.com

victor.rinne@scott-sports.com

hampus.rinne@scott-sports.com

bryson.castillo@scott-sports.com

gerrit.mueller@scott-sports.com

Please do not contact the Sales team for support on warranties and spare parts.

With the help of this Techbook, we aim to offer you a fast and efficient service system, which will be an adapted version of the B2B warranty, SAP-claim procedures and service we already run in the other divisions of SCOTT Sports SA.

By using the B2B warranty online program there is no longer a need to return defective parts back to you from the dealer or from you to SCOTT Sports. This saves time and transport costs, makes each step of the claim procedure traceable, and offers you a full overview of your claim's progress and related shipment of the replacement part.

For more information on our service, please kindly refer to the following chapters of this Bike Techbook MY22. It provides a guideline and information on warranty procedures and forms, technical information, spare parts article numbers and the details of our B2B system.

For further questions or comments please feel free to contact us at any time.

We look forward to working with you.

Moritz Scheuplein / Patrick Bochud / Stuart Sanders / Gareth Clutton / Hampus Rinne /

Victor Rinne / Bryson Castillo / Gerrit Müller

SPARK

Technical Data:

Seatpost:	31.6mm
Seatpost Clamp:	34.9mm
Travel:	Rear 120mm Front: RC 120mm Non RC 130mm
Shock Length:	165mm
Shock Stroke:	45mm
Hardware M/Frame:	Trunnion
Hardware Linkage:	20mm Bush x 10mm Bolt
BB Housing:	92x41mm
Chainring Max:	38 Tooth
Chain Line:	55mm
Tyre Width Max:	2.4 Inches

Tyre sizes often vary from brand to brand. Always ensure the frame, linkage & swingarm tyre clearance is adequate when replacing the rear tyre.

The Spark RC and Spark 900 use identical frame platforms.

PLEASE TAKE NOTE OF THE BELOW ICONS THROUGHOUT THIS MANUAL FOR SAFE PRACTISE

EASY TECHNICAL STEP

IMPORTANT TECHNICAL STEP
(Take your time, get it right)

NO GREASE

WITH GREASE

THREADLOC

BEARING FIT

WARNING/CAUTION

TORQUE CHECK

Silverton 1.0 wheels

Pay attention on replacement rims.

Please note that the carbon rims on the Spark (Silverton 1.0 and 1.0s) are an identical rim with an internal width of 30 mm. The “s” only represents the difference in the hubs.

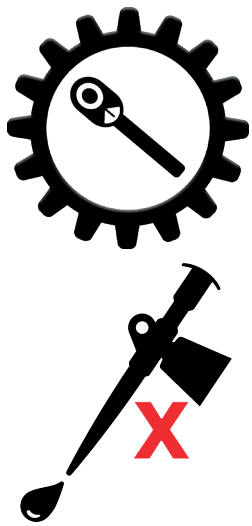
It should be noted that the Silverton 1.0 fitted to the Scale is a thinner 26mm rim. (Internal width). The same rule is used for the SL.
Please refer to the wheel section at the back of the main techbook for further information.

Hangers & Axles:

The Spark has only one rear hanger, this is the SRAM UDH.
This is available from your SRAM supplier, it is only available via Scott if you do not have a supplier in your region.

286000 - SCO Dropout Sram UDH 21

The UDH must be assembled without grease to a torque of 25Nm reverse thread



The new rear axle is specific for the MY22 Spark and contains a “plug in“ tool containing T30/T25 and M6 Hex key:

290016 - SCO Axle RWS Rear 148x12 Spark Plug 22

The Axle must be assembled with grease, and torqued to 10Nm.

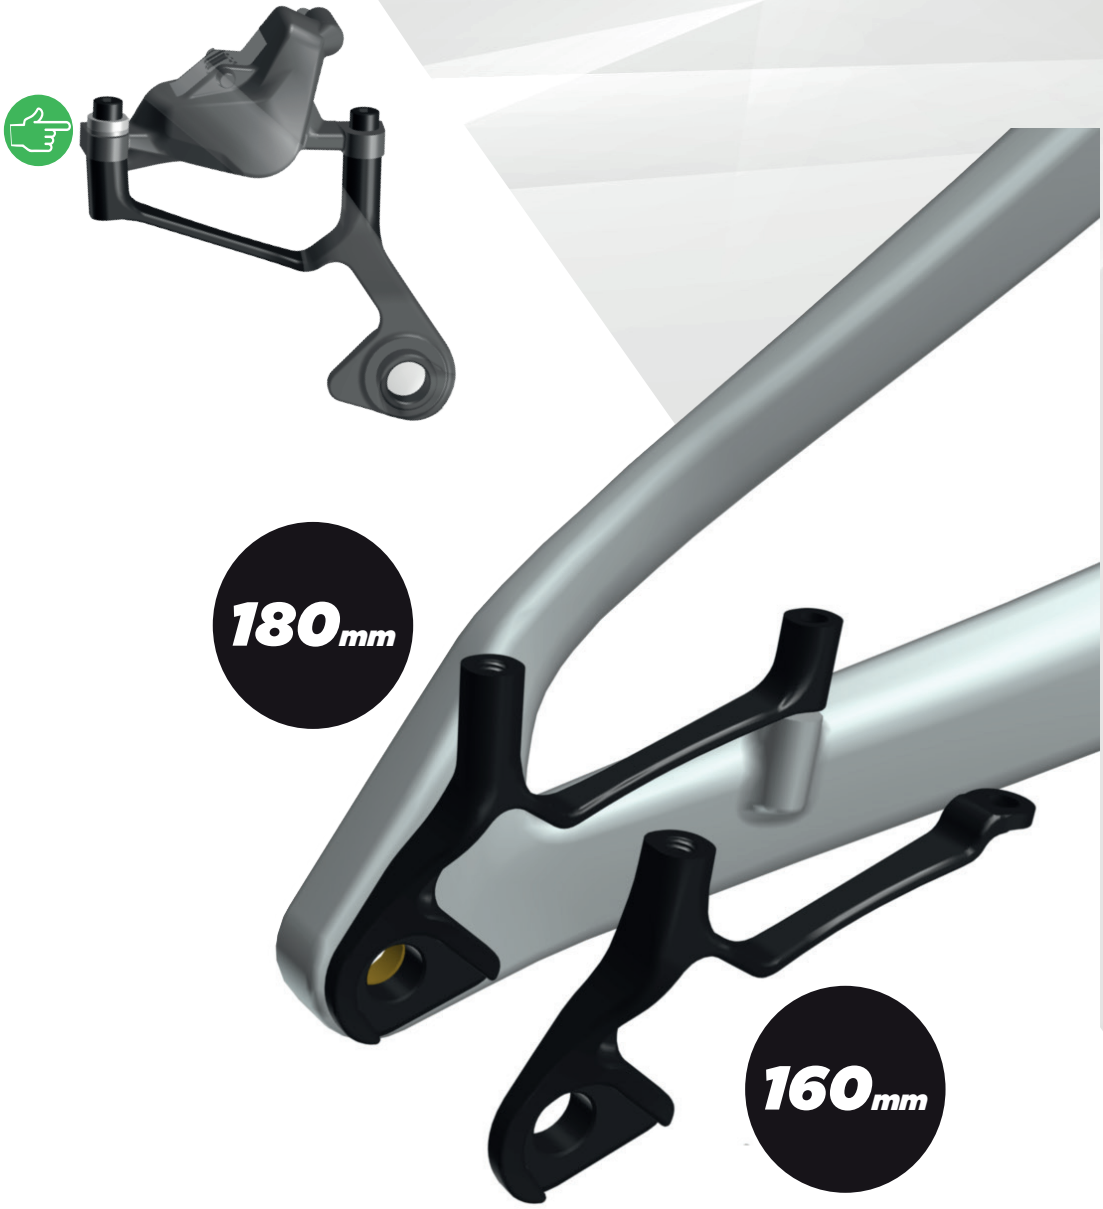
Rear Brake Mounting:

The brake calliper mount is a standard post mount with a specific adaptor for the MY22 Spark, this is available in 160 and 180mm only. (No live valve option).

Please note that while these are similar to the previous year's, they are not compatible.

290010 - SCO Brake Mount Spark 22

The 180mm mount will need conical washers, as in previous years.

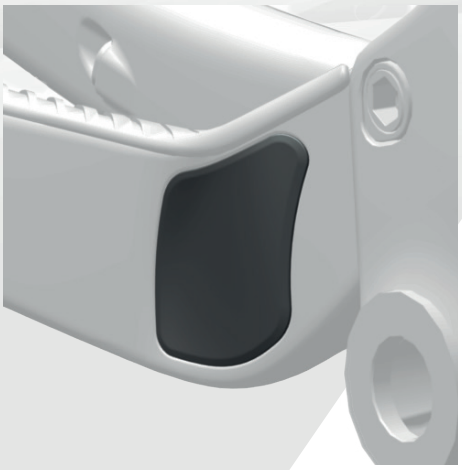


Chain Protectors:

The Chain Protectors will come in two options:

290017 - SCO Chainsuck Protector Spark 22
288539 - SCO CS/SS Protector Glue Spark CB 22
288540 - SCO CS/SS Protector Glue Spark AL 22

The MY22 Spark is not compatible with a chain guide.

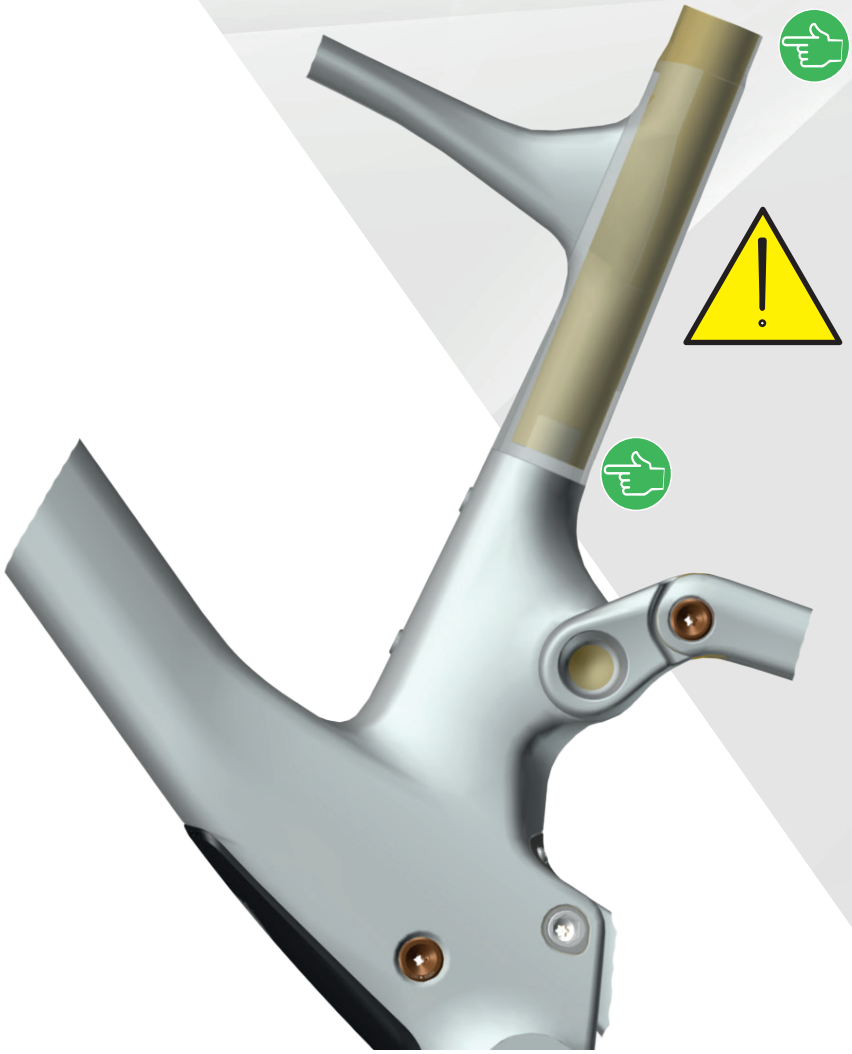


Maximum Seatpost Insertion:

Please observe the maximum seatpost insertion, there is a stopper inside the frame.

This is size specific:

Small: 150mm
Medium: 175mm
Large: 225mm
XLarge: 275mm

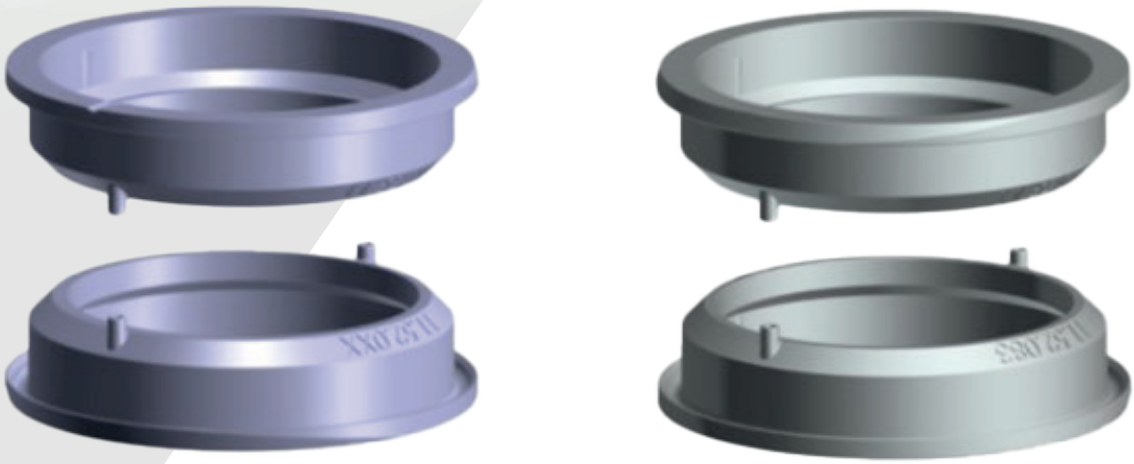


Headset:

The MY22 Spark headset is unique, it has several set up variables:

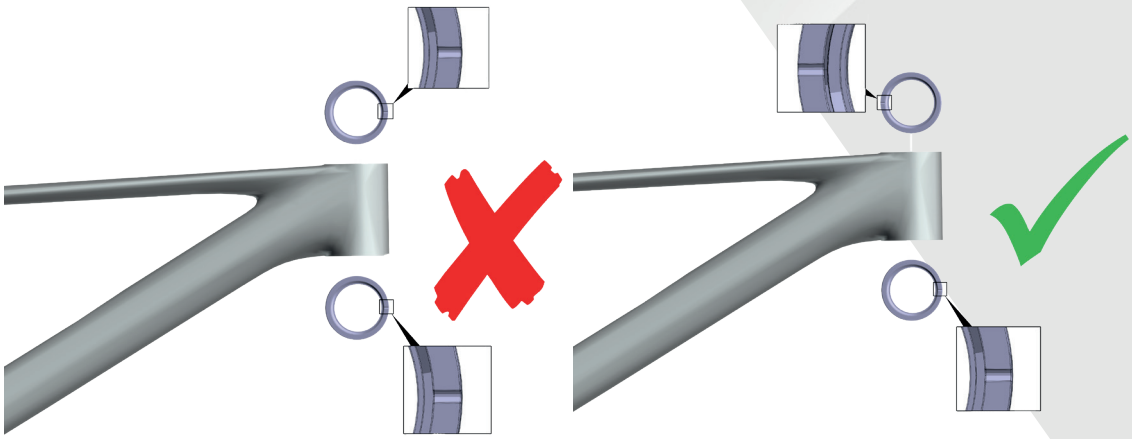
288251 - SYN Headset ZS56/28.6 - ZS56/40 MTB
this includes the bearings compression ring and crown race.

290060 - SCO Headset Cup Kit Spark 22
This will include two cups of 0 degree & 0.6 degree. Size Specific



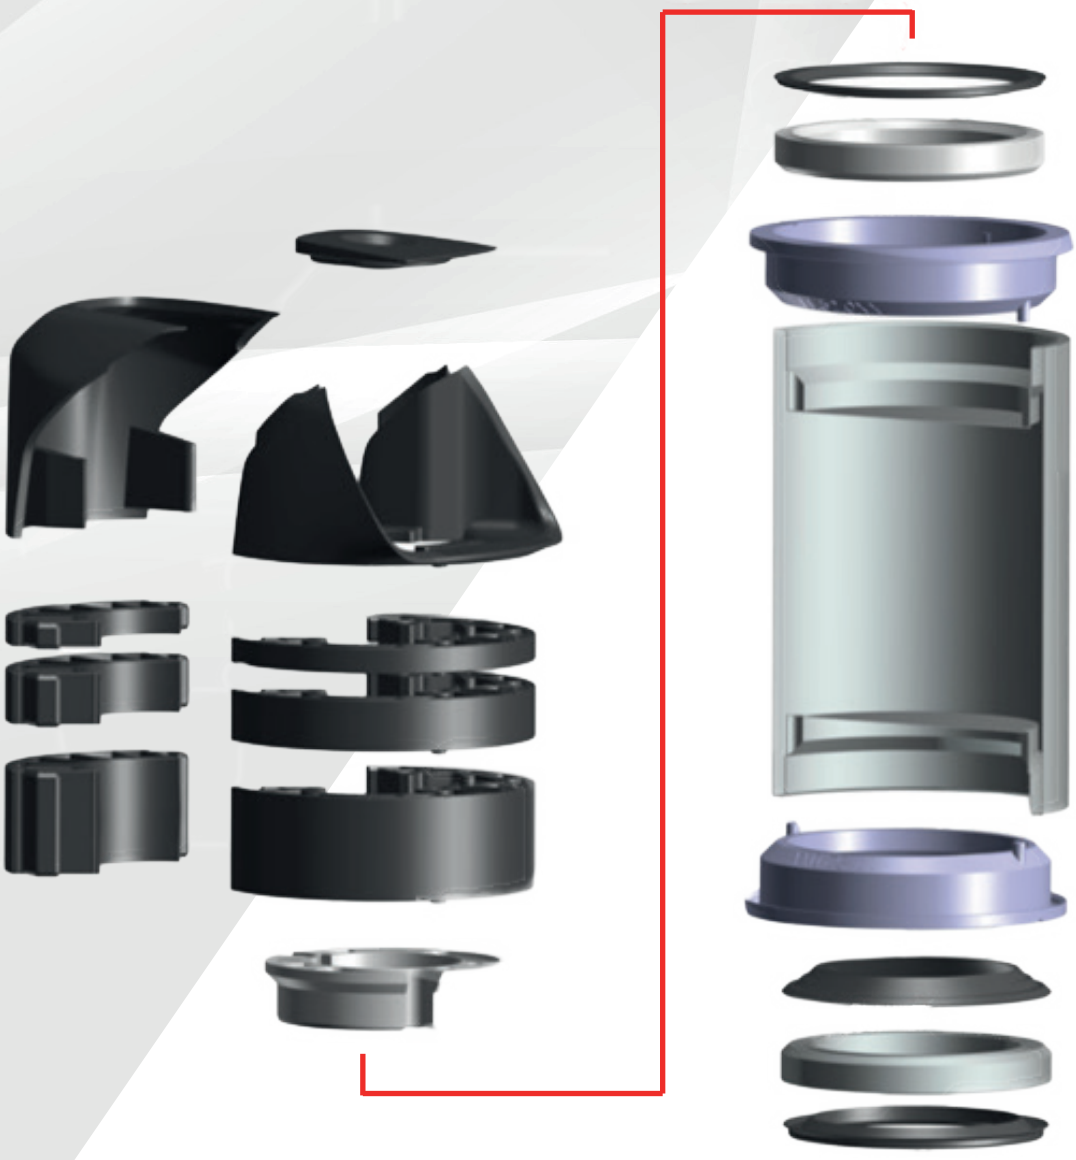
Headset indication and orientation, it is important to have the headset installed correctly depending on the setup. There are two types, 0° and 0.6°, these can be identified from the stamp on the inner surface of the headset cup.

For 0.6° this can be installed at + or – but it is essential that the angle indication markers on the headset are set opposite to each other, top facing forward and bottom facing backwards (or vice versa).



Do not use a standard Headset Removal Tool to remove the cups.

The headset assembly must follow the below no matter which bar/stem system is being used.



There are three separate Stem Spacer Kits & one Headset Spacers Kit:

290059 - SCO Stem Spacer/top cap SY MTB XC 22
290057 - SCO Stem Spacer/top cap SY MTB Combo 22
290058 - SCO Stem Spacer/top cap SY MTB DC 22

The Headset Spacer Kit will contain 3 x 5mm, 2 x 10mm, 1 x 20mm Spacers:

290056 SCO - Headset Spacer Kit IC MTB 22

Cable Guides & Covers:

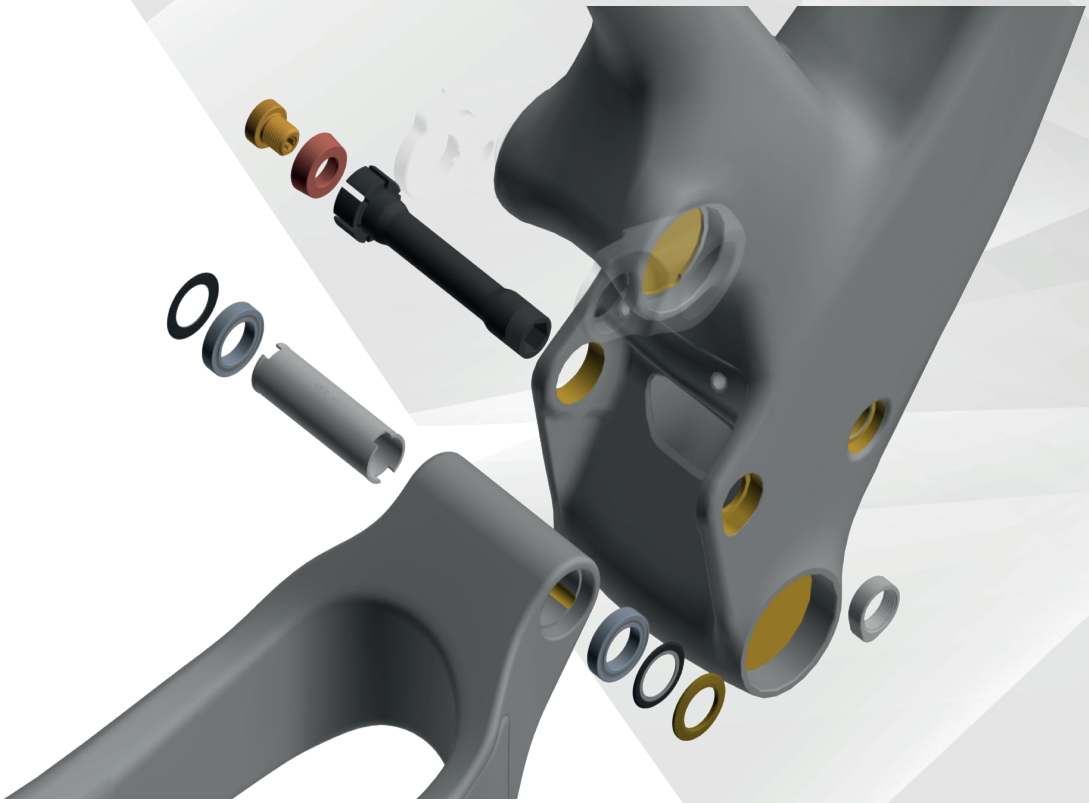
The MY22 Spark's cable routing is all internal, the follow guides & covers are available:

290021 - SCO Cable/Shock DT Cover Spark 22
290054 - SCO Handlebar Cableguide Kit MTB IC 22
290020 - SCO Cableguide & BB Cover Spark 22

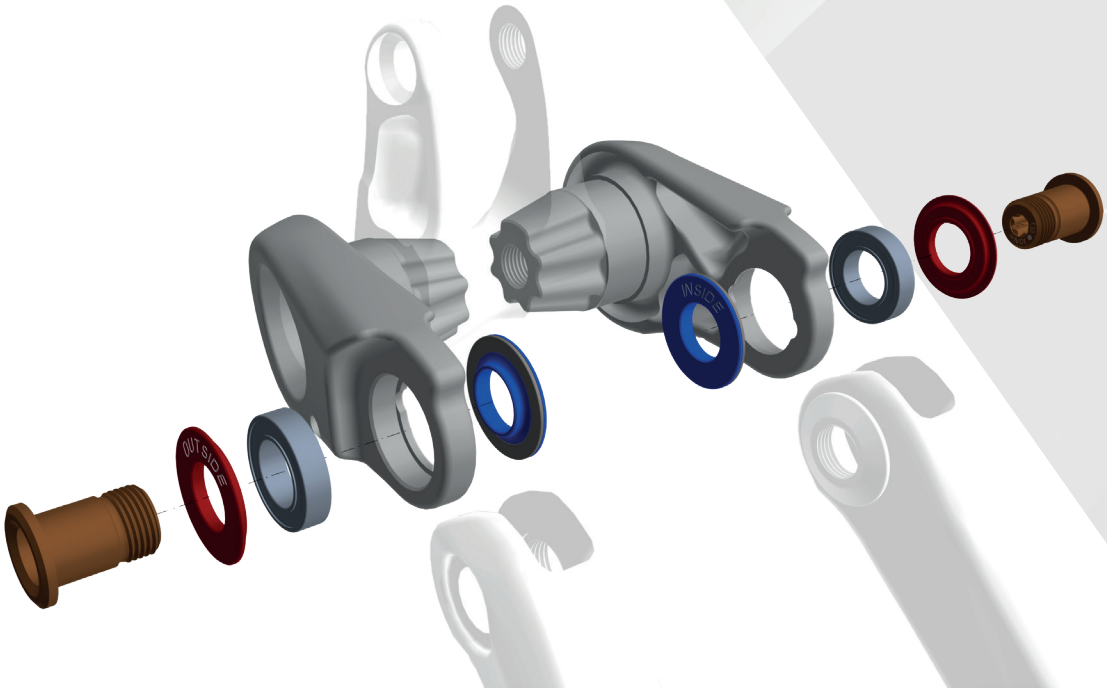
Suspension & Shock System Overview:

The Spark MY22 has a simple bearing system that is easy to maintain, but there are some points that should be noted.

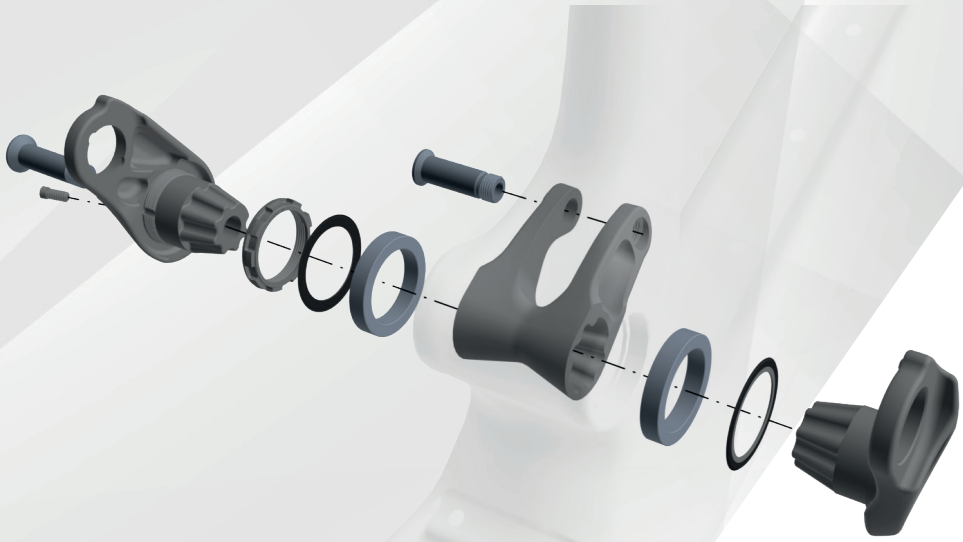
Main Pivot / Chainstay



Linkage / Seatstay



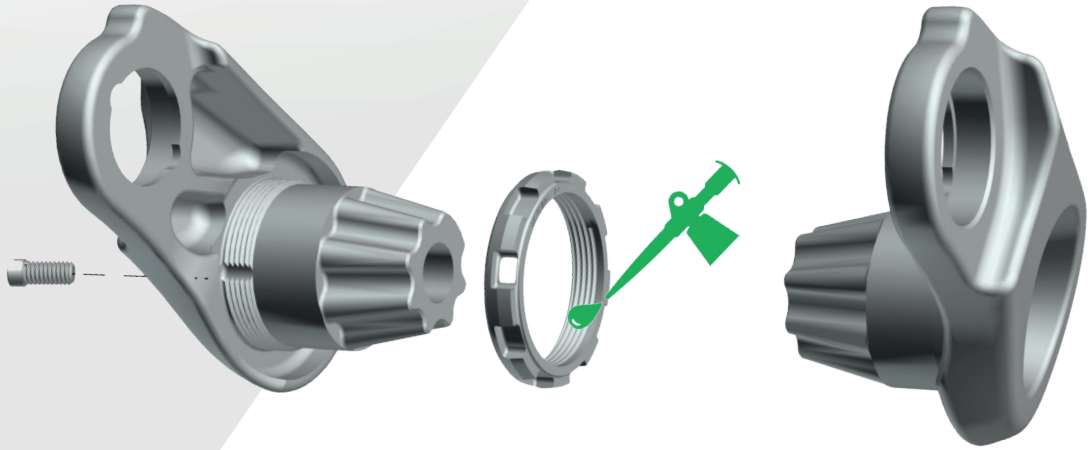
Main Linkage



Linkages

Scott have opened part numbers for all colours with an individual number, these are only available in alloy, please refer to the spare parts list at the end of this chapter.

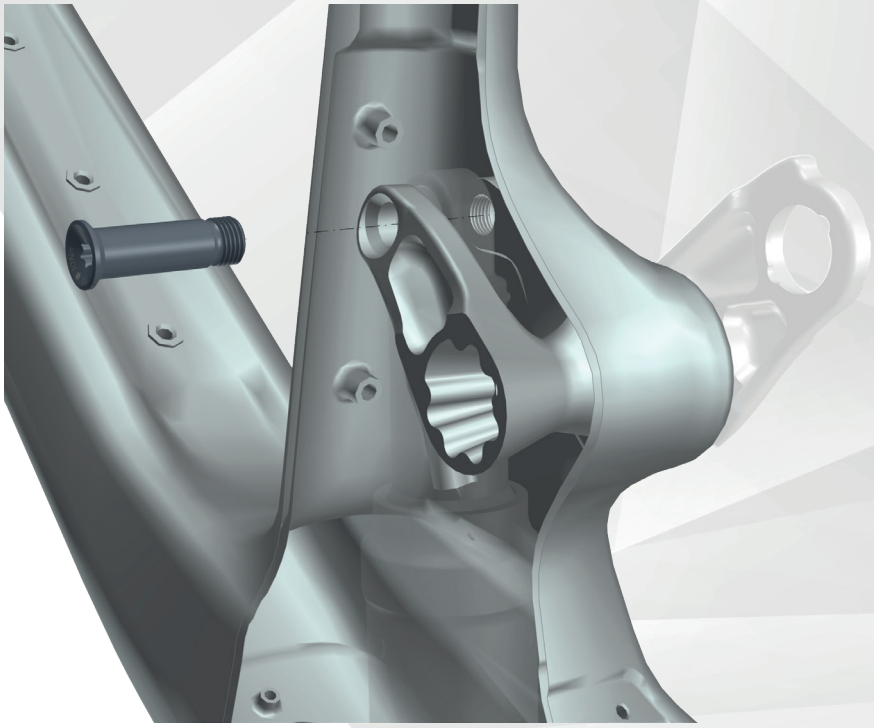
Each outer link comes with a preload ring and lock screw with seatstay bearings fitted, ensure that the thread on the preload ring has been greased.

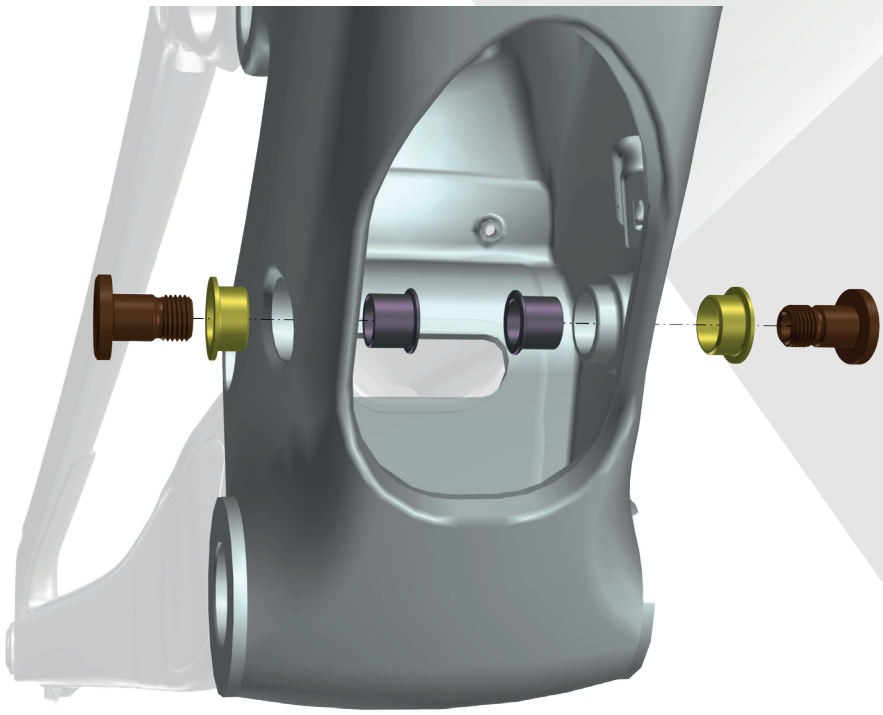


The Inner Link is sold separately:

289051 - SCO Linkage Bar Inner Spark 22

Shock Mount





Pivot & Bearing Tools

To help with bearing removal and refitting the kit Scott offered for the MY17 Spark will work for the MY22 Spark with the addition of an extra press:

266321 - SCO Tool set swingarm Spark 17 /Gen 18

This press is for the main linkage/seattube bearings only:

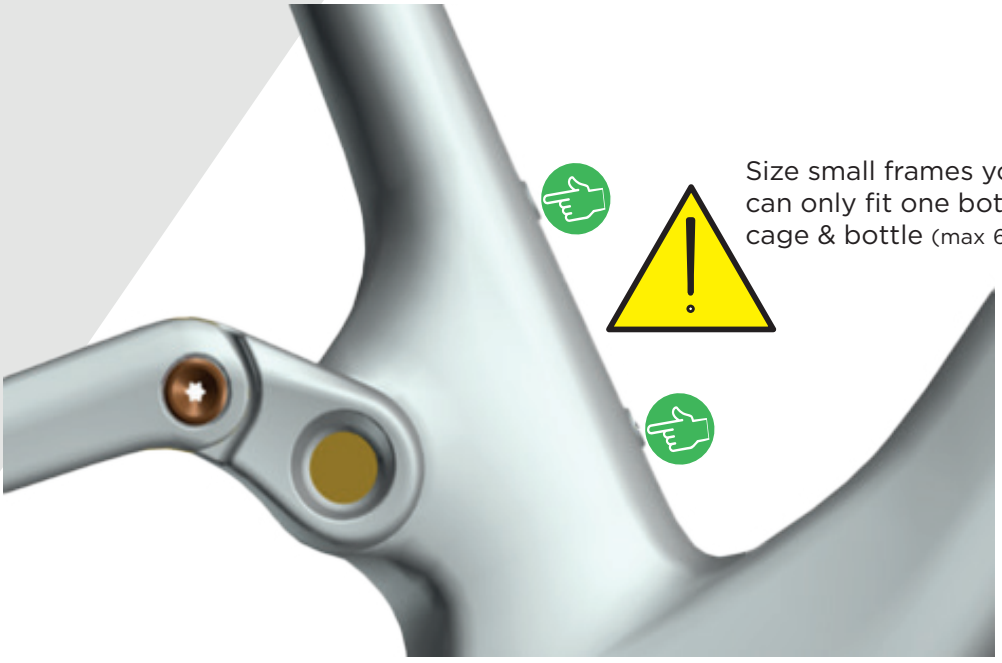
291227 - SCO Tool main link s-tube press Spark 22

Full Pivot, Bearing and Shock Mount Kits:

290013 - SCO Swingarm Rep Kit Spark 22 (images to follow)

290014 - SCO Shock Mount Bolt Kit Spark 22 (Images to follow)

Please be aware that the maximum bolt length for the bottle cage on the seat tube is 10mm. The rivet nuts have closed ends, and using a longer bolt may result in damage to the frame.



Shock/Suspension:

For best performance the MY22 Spark should use a 3mm outer casing with 1mm inner cable for the shock and seatpost, this is cable kit is available with kit.

294433 - SCO Cable kit Spark 22

For bikes that need the Twinloc to be mounted on its own clamp.

292621 - SCO Twinloc bar clamp 22

The upper shock bush will be the same as MY17 Spark and available from your local agent. If your country does not support service Scott will have the following available:

266000 - SCO Shock mount bush set FOX Spark 17
278348 - SCO Shock mount bush set R/S Spark 20

The rear shock is a Standard Fox part with a firm tune, Scott will not carry this as a spare part.

For X-Fusion, Scott will carry a spare shock for purchase only in countries without an agent.

⚠ This is not for Warranty.

290004 - SCO Rear Shock Spark Fox Nude 5 KHS 22

290005 - SCO Rear Shock Spark Fox Nude 5 22

290006 - SCO Rear shock Spark RS Nude RLC3 22

290007 - SCO Rear shock Spark RS Nude DLX RL3 22

290008 - SCO Rear shock Spark X-Fusion RLX 22

There is a new twinloc system in MY22, with 4 different options in one kit.

(Please refer to the Twinloc chapter of the MY22 techbook for more information when available).

For bikes with no dropper seatpost the lower lever should be removed and the SP41 cable mount swapped.

290009 - SCO Twinloc downclamp 22

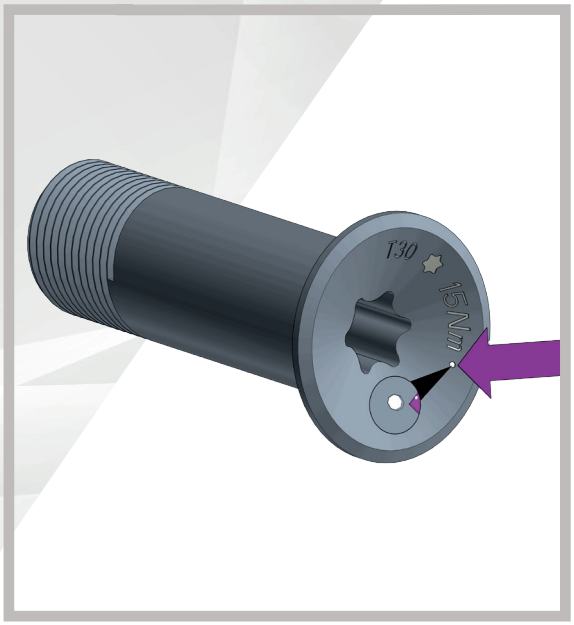
Linkage & Central Linkage Bolt:

Please note that the Scott Spark has two linkage and two main linkage bolt types, these are identified with a small dot as seen on the below images.

Only assemble this linkage with the matching bolt.

Option 1 - DOT and DOT



Option 2 - No DOT and No DOT

Do not use a combination of dot and no dot ⚠

ASSEMBLY & CABLE ROUTING:

Please take note of the following specifics when assembling the swingarm, linkage, and front triangle.

Bearings:

There are three types of bearings used in the Spark MY22.

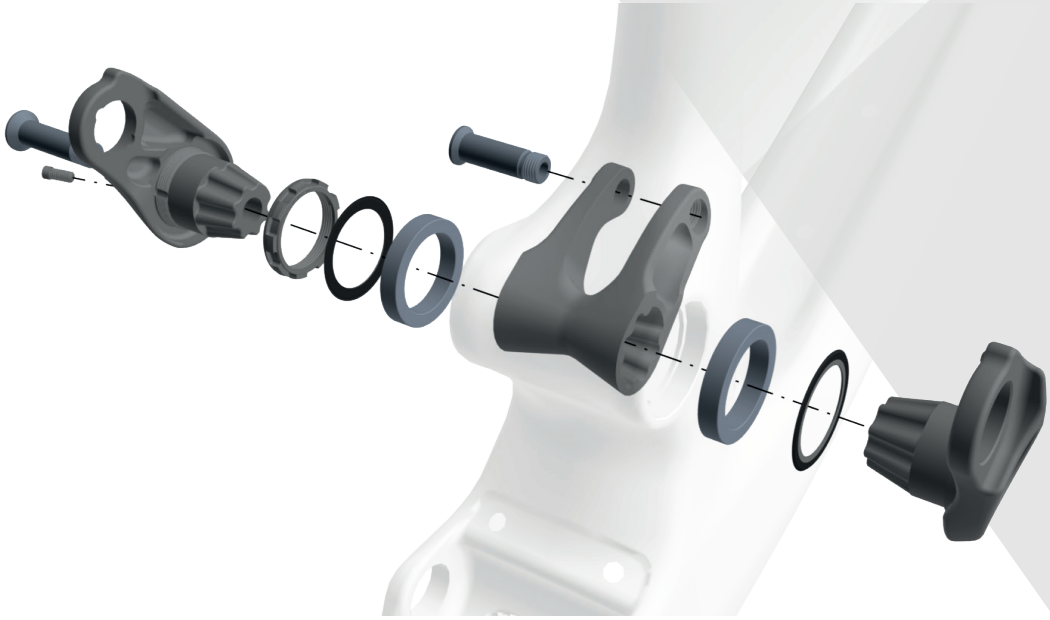
Seatstay / Linkage: **X2 21x12x5mm (6801)**

Chainstay: **X2 24x15x5mm (6802)**

Seattube / Linkage: **X2 37x27.7x6.5mm**

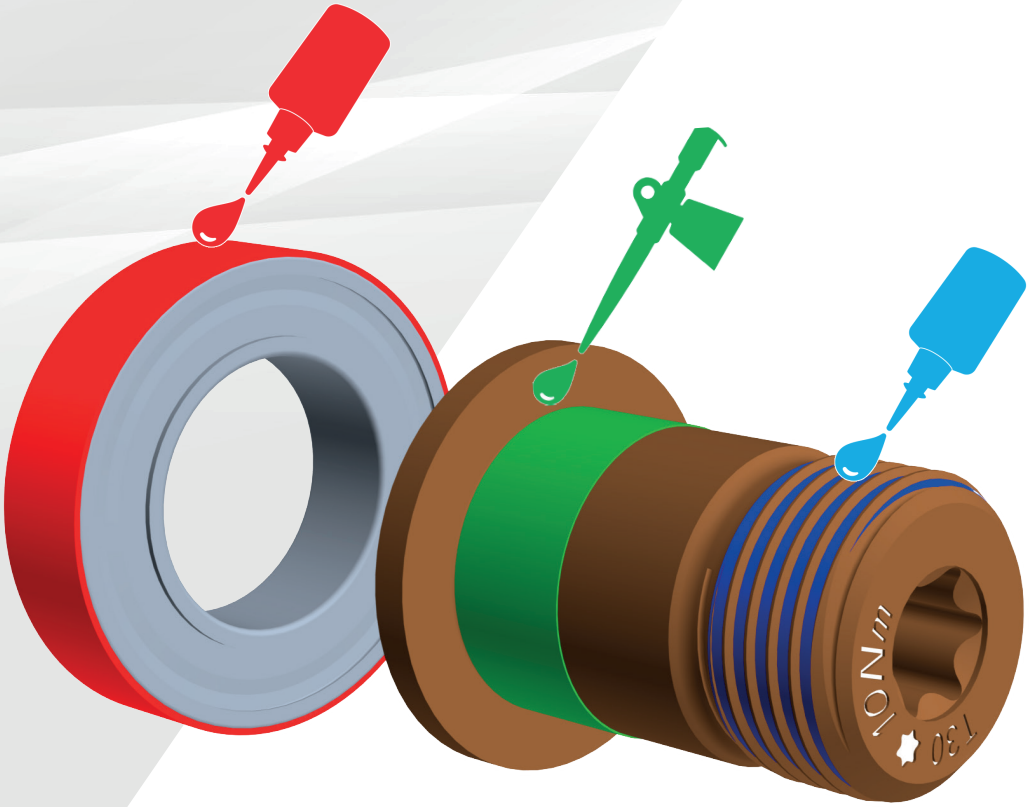
The seattube / linkage bearings are unique to Scott and comes as part of the swingarm repair kit (will be available in due course with description SCO Main link bearing/seal Spark/Pat 22).

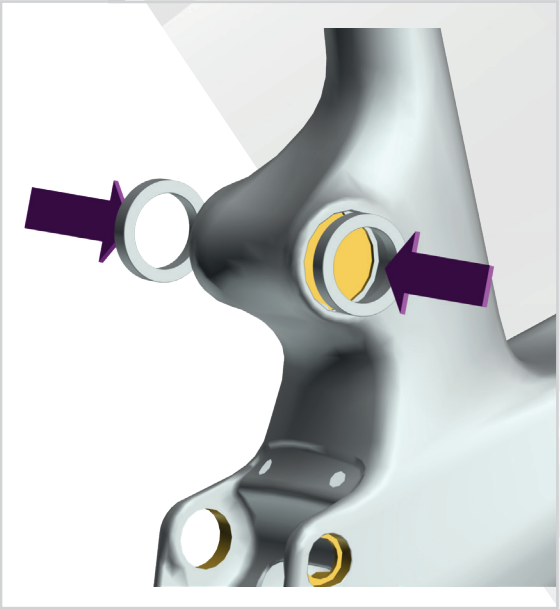
It is possible to use 37x27.5x7mm (27537) if needed. If this is done the 2 rubber seals must be removed as highlighted below.

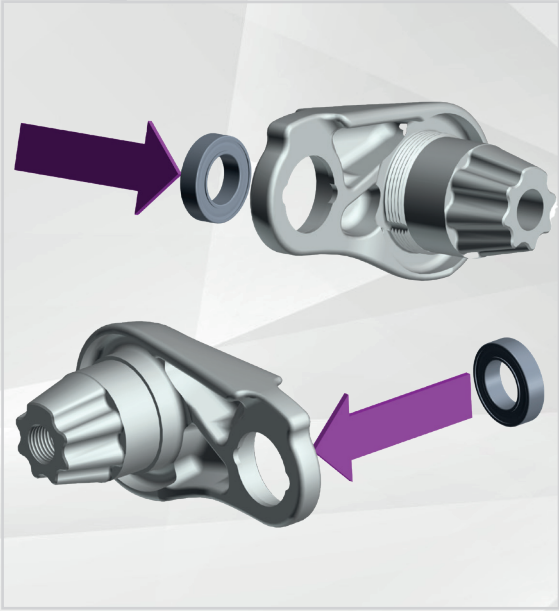


For the following instructions please follow the tool type and torque settings indicated on each bolt.

Use Bearing Fit, Grease, and Threadloc as showned (all carbon friendly):





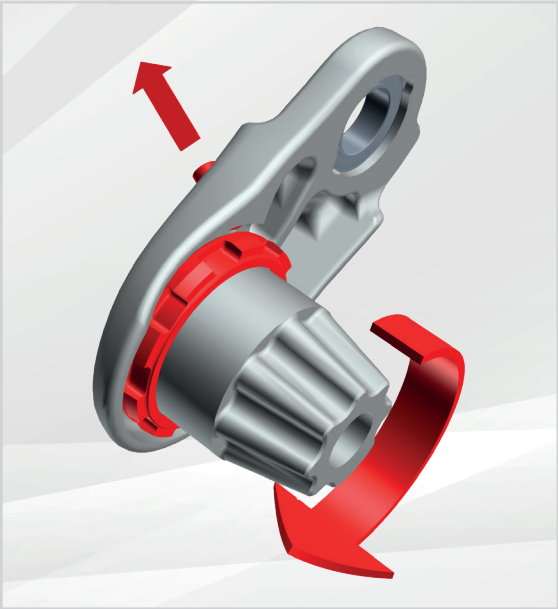


01

Press both seatpost main linkage bearings into place

02

Press seatstay linkage bearings into place.

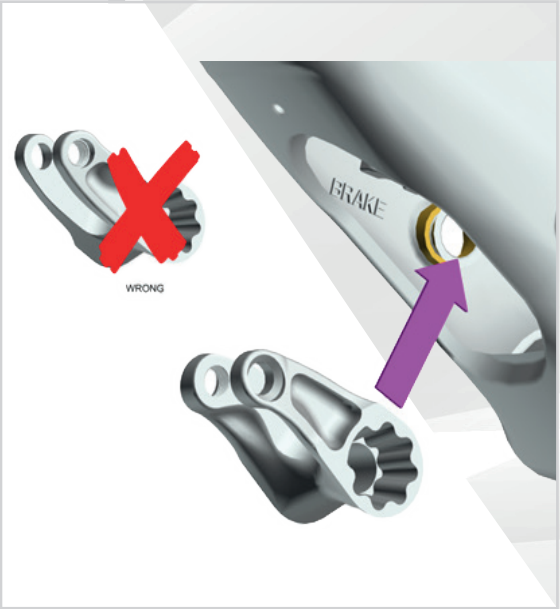


03

Unscrew the small retainer grub screw. Reset the preload washer, if the threads are dry remove and re-fit with grease. Do not re-tighten the grub screw yet.

04

Slide the seals over the linkages.



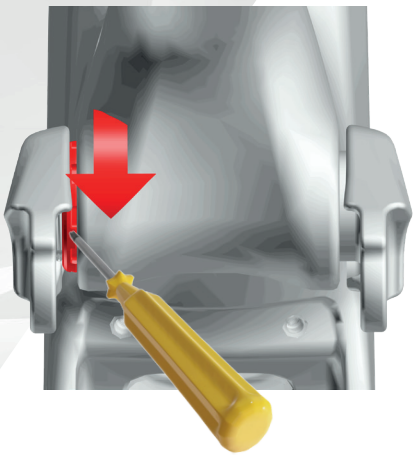
05

Insert the Inner Linkage from the bottom of the frame, ensuring the orientation is correct.

06

Align the Inner and Outer Linkages, pay attention to the grease location.

Tighten Linkage Bolt to desired torque using thread lock.

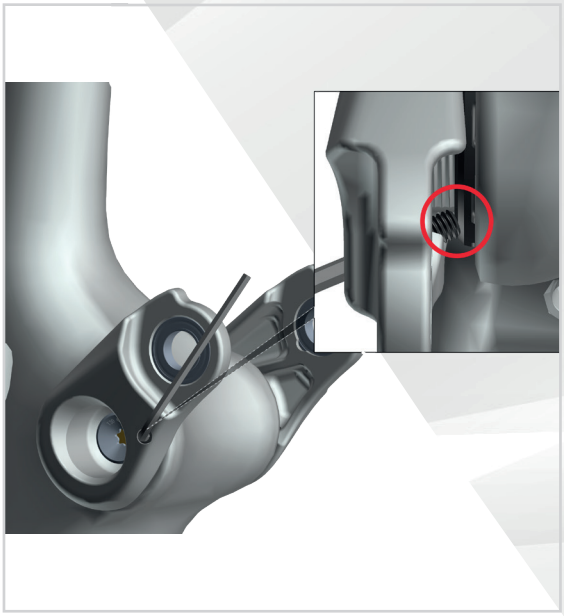


07

Gently tap with a rubber mallet to seat the linkage to the left.

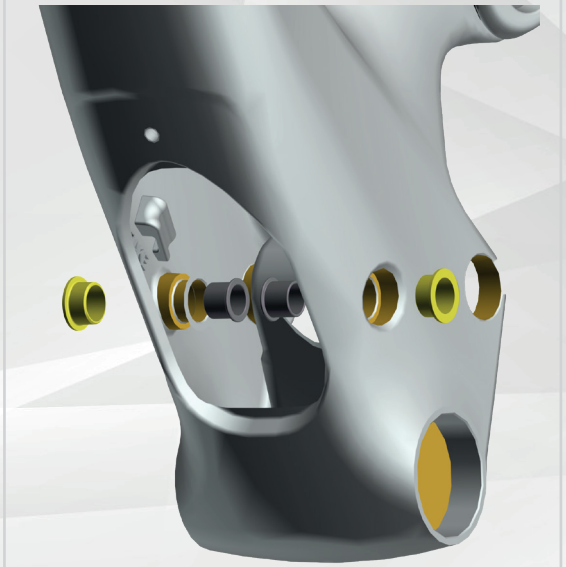
08

Preload the bearing using a blunt item to help protect against paint damage.



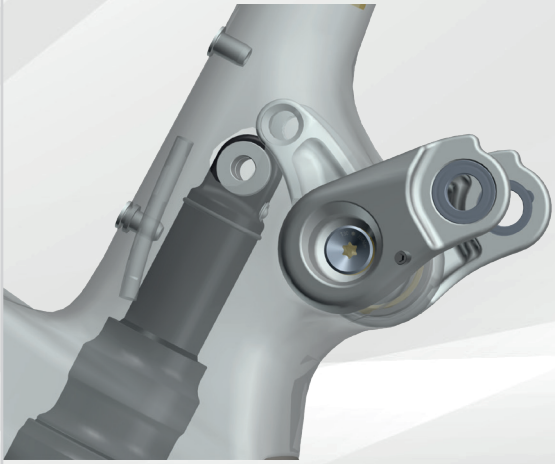
09

Set the preload washer with the small screw using a 2.5mm Allen Key.



10

Fit the lower IGUS bushings and spacers.



11

Insert the shock, then line up the shock and the linkage together in the shock window.

12

Insert the top shock bolt.

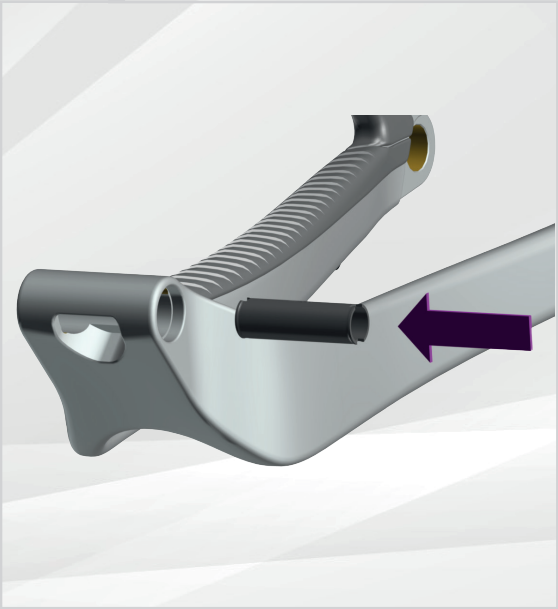
Use threadloc on the threads.

13

Push the shock up until aligned with the lower IGUS bushes, then insert the bolts.

14

Press the Drive Side bearing in first.



15

Insert the spacer tube.

16

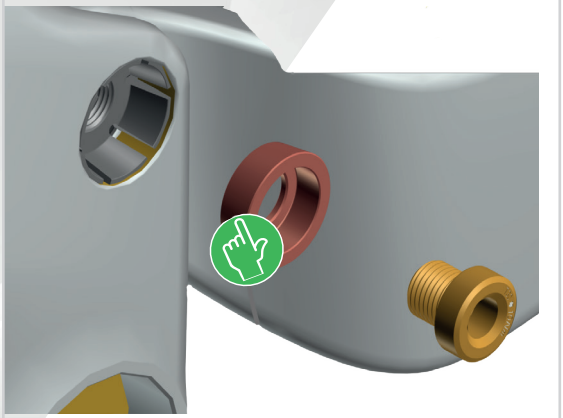
Press in the Non Drive Side bearing, making sure the spacer tube is aligned between both bearings.

17

Place the two rubber seals onto the chainstay bearings using a little grease to hold them in place.

18

Place the Alloy spacer onto the Drive Side rubber seal only. Making sure the text is visible.



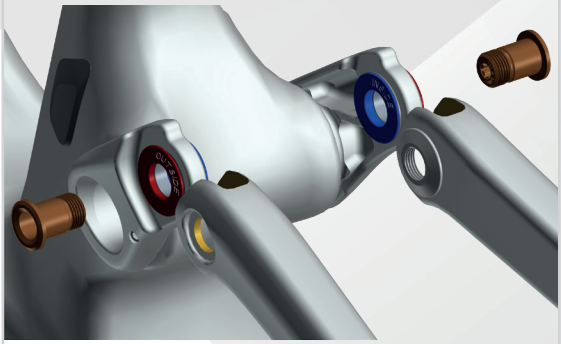
19

When mounting the chainstay main pivot bolt take the time to route the gear cable and brake hose through the swingarm. Make sure the pivot bolt nut is aligned correctly.

Use Threadloc to secure

20

Insert the expansion lock nut, ensuring grease is used on the outer surface. Threadloc on the end bolt.

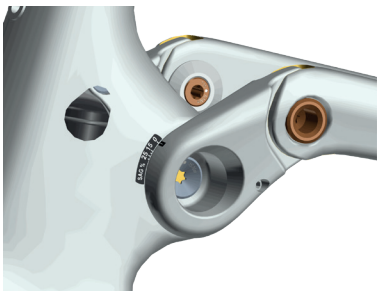


21

Fit the seatstays to the linkage, pay attention to the Inner & Outer bearing spacer locations.

22

Connect and set TC cable to the shock and install the shock cover.



23

On the Non Drive Side Linkage Pivot there is a Sag Setter.

Set the small line on the linkage to the Sag dimension outlined on the frame body.

SHOCK REMOVAL STEPS:

Please take note of the info on each bolt:
(tool type & size, plus torque)

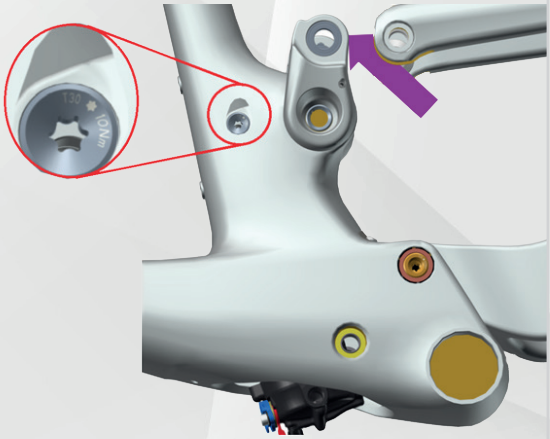
01

Please remove the rear wheel and crankset before starting this process.

Disconnect the seatstay / linkage pivot, removing the bearing spacers.

02

Remove the lower shock cover.

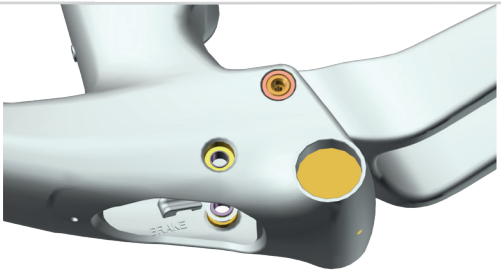


03

Remove the lower shock bolts and disconnect the TC Cable.

04

Remove the rubber shock bolt cover. Rotate the linkage upwards until the upper shock bolt is visible in the shock window.



05

Remove the shock from the bike.

CONTESSA SCALE

Warranty frames:

For MY22 please make sure you order the correct warranty replacement, as there will be a mixture of boost and non-boost frames as well as FD fixations.

For warranty replacement Scale frames please use the following - *make sure to use older frames for older bikes while available and double check the compatibility from previous techbooks

There may be several sales frames held on blocked account for anything that's not listed below.

For HMX SL RC 148mm use;
274967 – Sales Frame Scale RC 900 SL HMX SL

For HMX RC 148mm use sales frame or;
282403 -SCO Frame Scale RC 900 W/C 21 Wty

For HMF RC 148mm use sales frame or;
282404- SCO Frame Scale RC 900 T.I 21 Wty
282405 -SCO Frame Scale RC 900 Team 21 Wty

For HMF 900 148 use sales frame or;
282406-SCO Frame Scale 910 21 Wty
285922-SCO Frame Scale 930 21 Wty

For alloy 148mm frames X1 use;
282407-SCO Frame Scale 950 21 Wty

For alloy QR 141x5mm use;
282408-SCO Frame Scale 970 21 Wty

For HMF 148mm Contessa use;
282409- SCO Frame Cont Scale 910 21 Wty

For alloy 148mm Contessa use;
282419- SCO Frame Cont Scale 940 21 Wty

For alloy QR 141x5mm Contessa use;
282420- SCO Frame Cont Scale 950 21 Wty

Wheel size 27.5 and 26

For Future Pro 700 use; **276349 - SCO Frame Scale 700 20 Wty**
For Future Pro 26 use; **276350 - SCO Frame Scale 26 20 Wty**

Mixed !note that for these bikes size XS/S are 27.5 wheel and size M/L are 29 wheel!

Contessa Active 10 tapered head tube/141mm	288919 - SCO Frame Cont Active 10 22 Wty
Contessa Active 10 non tapered head tube/135	288920 - SCO Frame Cont Active 30 22 Wty
Contessa Active 30	288920 - SCO Frame Cont Active 30 22 Wty

For older or discontinued frames/non-boost alloy and carbon we will hold open key models, this remains the same from MY21/20, please consult older techbooks

Do not "upgrade" an older Scale 2 frame for a Scale 3 "boost" frames!

ADDICT RC
CONTESSA ADDICT RC

The Addict RC stays the same with no upgrades from previous years. Please see the MY20 techbook P71 for more information and assembly manuals.

The aftermarket Addict RC headset 275466 used in MY21 will be discontinued and replaced with the following headset used for the whole MY22 addict/addict gravel family.

288249 SYN Headset IS52/31.8 - IS52/42

The new RR2.0 and RR 2,5 stem combo available on our new MY22 Addict and Speedster frames will not be compatible with the Addict RC frame retroactively. You will need to change to the new headset to fit the new MY22 RR.2.0 & RR2.5 stem. The correct spacer kit for the stem must as well be used.

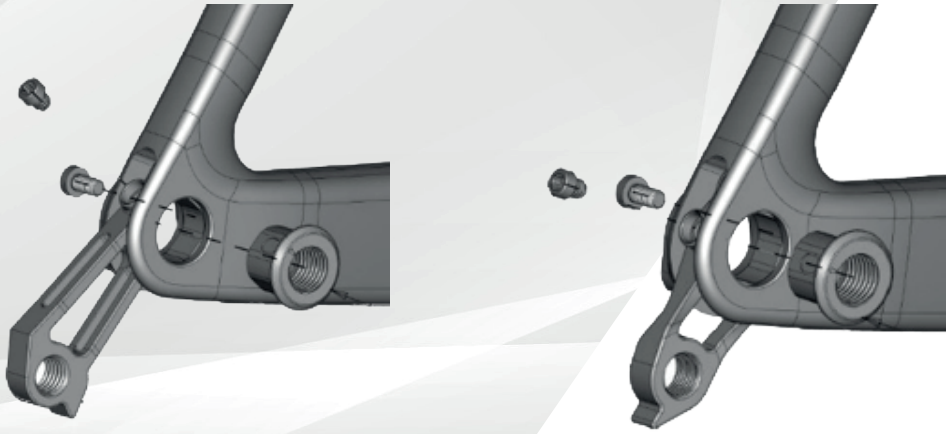
Axles & Dropouts:

The new Addict will have same dropout as the Addict RC and the rest of the addict family. The Hanger comes in standard and DM options and includes dropout, threaded axle cap, and fixation bolt.

277544 SCO Dropout Addict RC 20
277545 SCO Dropout Addict RC direct mount 20



Front and rear axles are available in two variations;

Standard version:

283340 SCO Axle Foil/Addict/Speedster D R 21
283341 SCO Axle Foil/Addict/Speedster D F 21

Tapered version:

277029 SCO Axle rear Addict RC/Plasma 6 TP 20
277030 SCO Axle rear Addict RC/Plasma 6 20

Seatclamp:

The Addict will have a standard seatpost 27,2mm and seatpost clamp.

235430 Seatclamp 31.2mm bolt Solace

Cockpit:

There will be a new handlebar and stem for the new Addict. RR.2.0 and RR2.5, with integrated cable routing under the stem. This means you can fit a standard handlebar to the stem and still have full cable integration.

288123 SYN Stem RR 2.0

294283 SCO Stem cable cover Speed/Addict 22
The Stem Cable Cover is size specific to the stem. And available as a spare part.

XXS: 83 mm

PATRON eRIDE

Technical Data:

Seatpost:	31.6 mm
Seatpost Clamp:	34.9 mm
Travel:	160 mm F & R
Shock Length:	205 mm E2E
Shock Stroke:	60 mm
Hardware M/Frame:	Trunnion
Hardware Linkage:	17 x 10 mm
Chainring Max:	38 T
Chain Line:	52 mm
Tyre Width Max:	2.6”
Max / Min Rotor:	203 Only (no special mount)

Tyre sizes often vary from brand to brand. Always ensure the frame, linkage & swingarm tyre clearance is adequate when replacing the rear tyre.

Fenders & Carriers:

The Patron can be equipped with a kickstand, rear fender and rear rack.

265597 SYN Kickstand Fully E-MTB 2 bolts

288545 SCO Rear rack AXIS eRide Evo SnapIt 2.0

280312 SCO Rear fender stays Strike/AXIS ER Evo

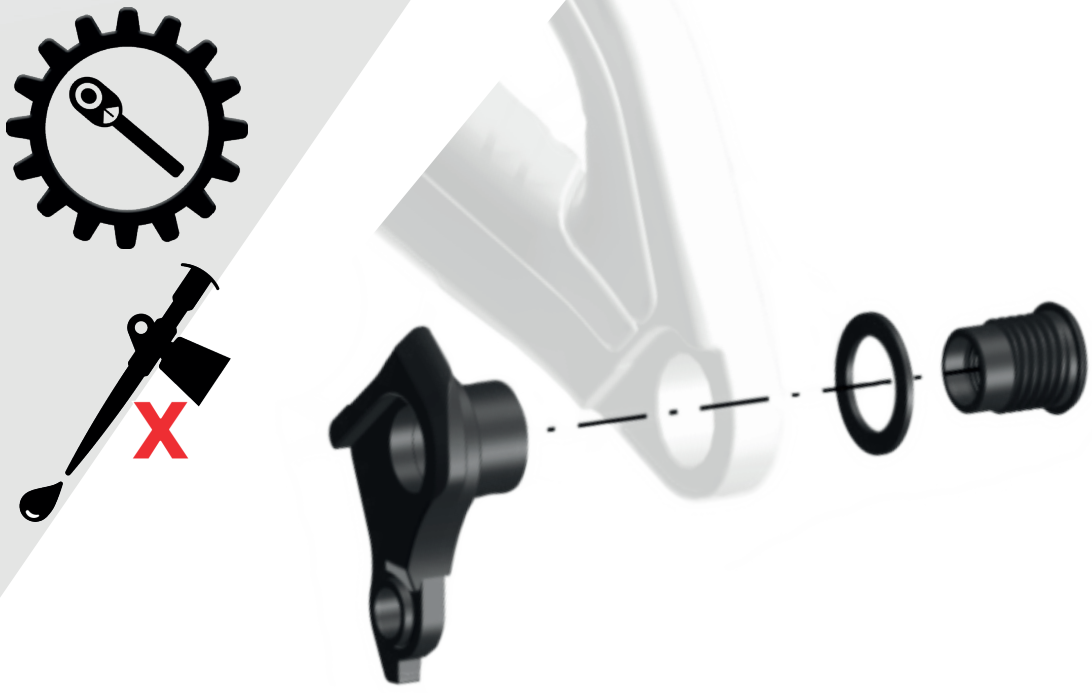
280311 SCO Rear fender Strike /AXIS E-Ride Evo
(front fender not possible to mount to fork arch)

Hangers & Axles:

The Patron has only one rear hanger, this is the SRAM UDH.
This is available from your SRAM supplier, it is only available via Scott if you do not have a supplier in your region.

286000 - SCO Dropout Sram UDH 21

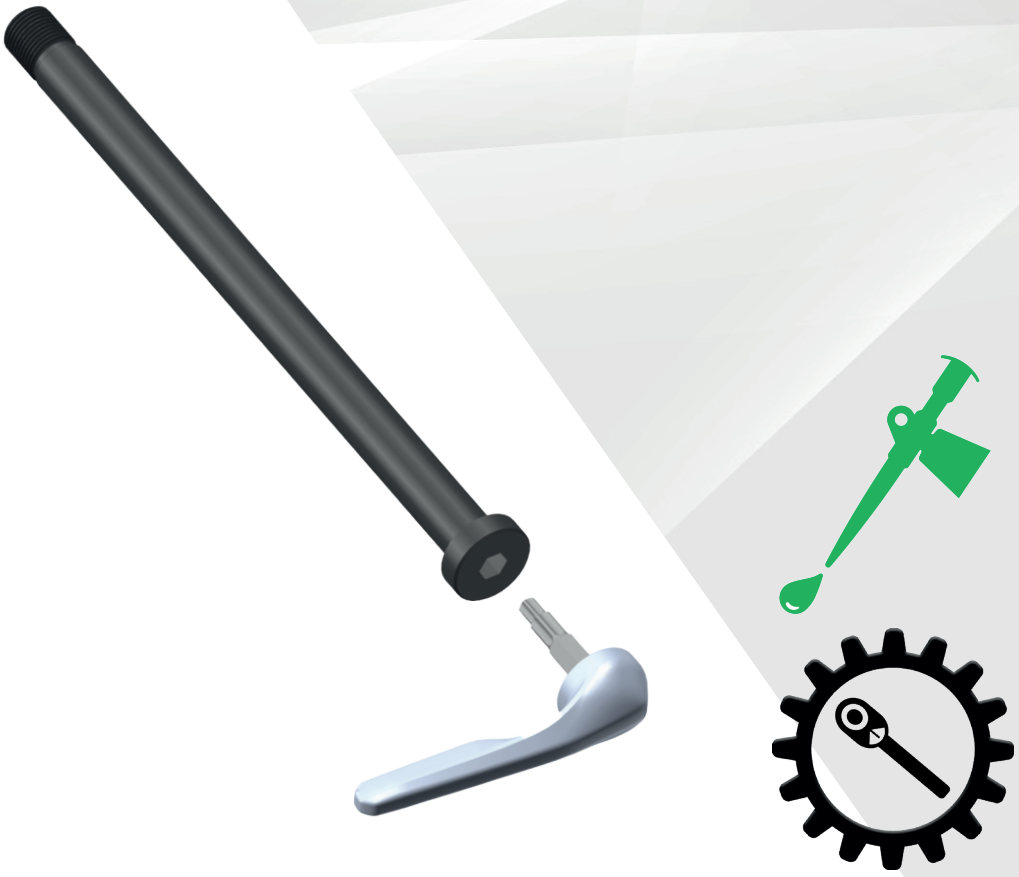
The UDH must be assembled without grease to a torque of 25Nm
reverse thread



The new rear axle is the same as the Spark and contains a “plug in“ tool T30/T25 and M6 Hex key:

290016 - SCO Axle RWS Rear 148x12 Spark Plug 22

The Axle must be assembled with grease, and torqued to 10Nm.



Maximum Seatpost Insertion:

Is the same for both carbon and allow front triangles.

S= 245mm

M=265mm

L=300mm

XL=315mm

Cockpit:

The Patron has the new E-bike specific Hixon Handlebar with integrated cable routing:

292623 SCO eRIDE Bar SY Hixon IC Patron Wty 22

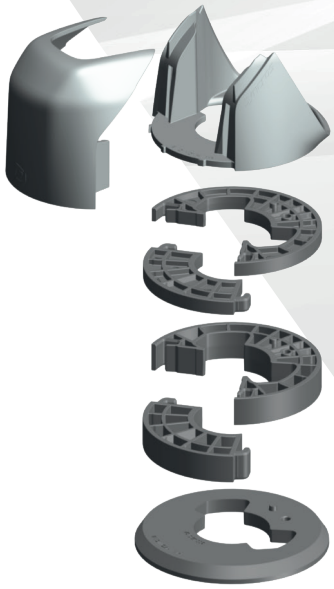
The Patron Headset will be:

288252 SYN Headset ZS66/28.6 – ZS66/46

There is a new spacer kit for the Patron Stem and handlebar:

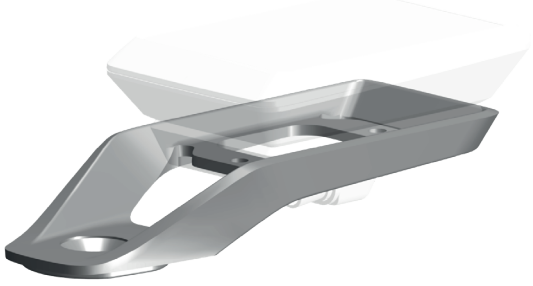
Spacer kit will include Stem and Top cover, headtube cover and 2pcs of 5mm and 3pcs of 10mm spacers. Not cross compatible with spark.

292642 SCO Stem spacer kit Patron 22



There will be a new Koix holder for the MY22 Hixon IC eRIDE handlebar:

292691 SCO eRIDE Kiox mount Hixon IC 22



Cable Guides & Covers:

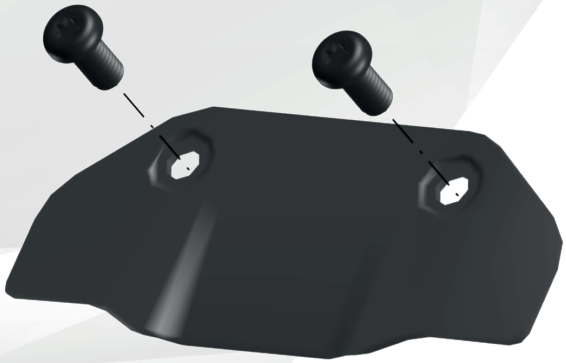
The Patron cable routing is internal, the following guides and covers are available:

Chainstay Protector:

292692 SCO eRIDE CST protector Patron 22

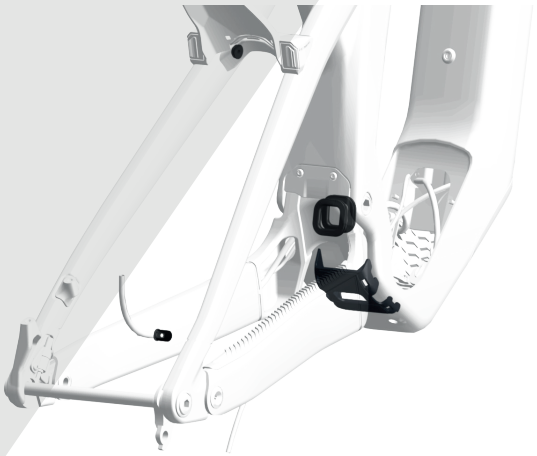
Main Pivot cover:

292633 SCO eRIDE M/P cover Patron 22

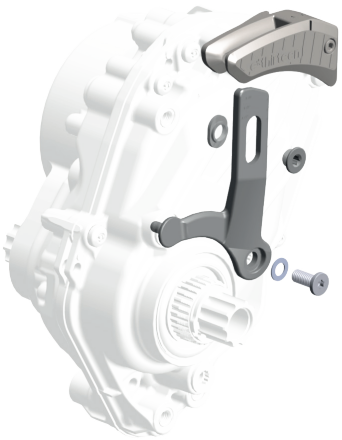


Cable Guide Kit & Chain Guide.

294279 SCO eRIDE cableguide set Patron 22



294278 SCO eRIDE Chainguide Patron 22



The Patron Features the new thinner cable housings from Jagwire. We have them as a set available in markets with no Jagwire service. Each kit contains 3 cables and housings a 1800mm.

294433 SCO Cable kit Spark 22
seatpost / shock / fork, 3mm / outer x3 1.8m / 1mm inner x4 1.5m plus end caps

The shock covers will be different for alloy and carbon front triangles.
The shock cover kit will include all the fixings and brackets.

292628 SCO Shock Cover Patron CB 22
282627 SCO Shock Cover Patron AL 22

The plug cover for the drive unit is also avialable:

292634 SCO eRIDE Plug cover/ bridge Patron 22

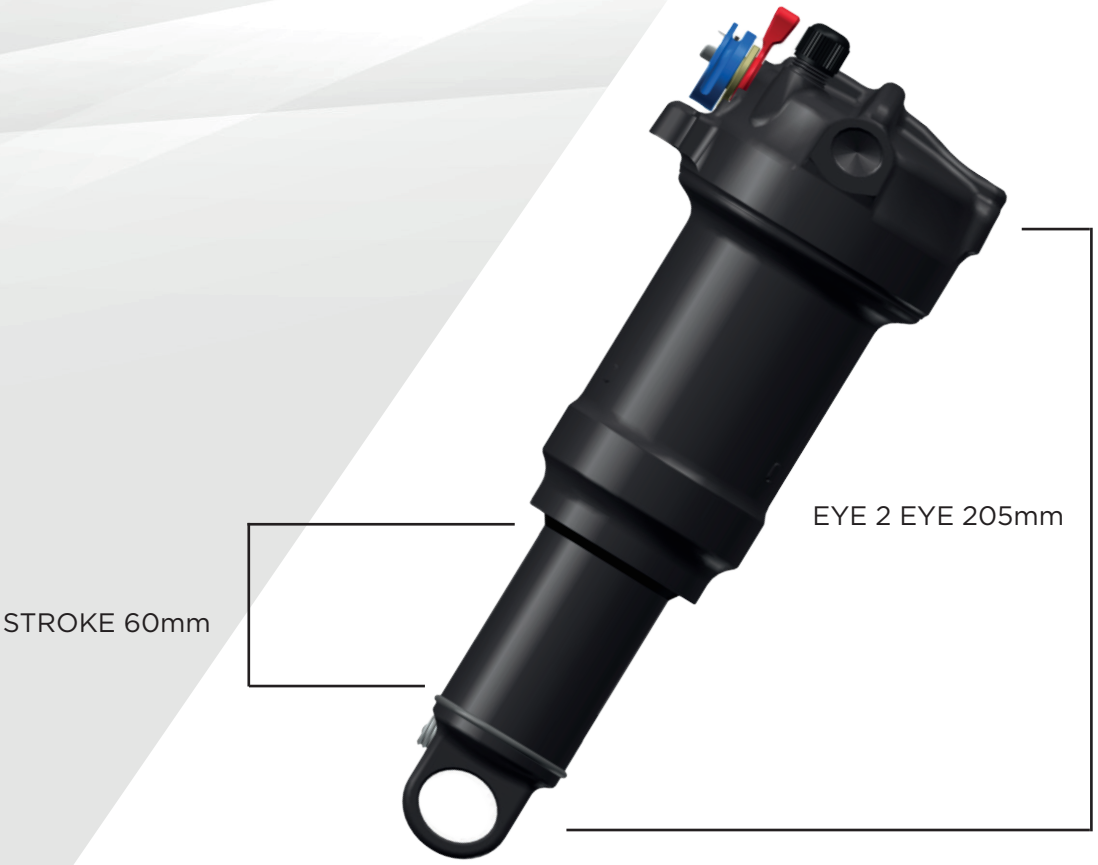
Shock/Suspension:

The shock bush kit has a custom size (17x10mm) for the Patron frame and not a standard aftersales spare part from your FOX agent.

294280 SCO eRIDE Shock mount bush Fox Patron 22

We will carry the rear shocks as spare parts. They are solely for sales in markets without a fox service distribution.

292640 SCO eRIDE Rear shock Patron Fox Nude
292641 SCO eRIDE Rear shock Patron Fox Nude KSH



There is a new twinloc system in MY22, with 4 different options in one kit.

(Please refer to the Twinloc chapter of the MY22 techbook for more information when available).

For bikes with no dropper seatpost the lower lever should be removed and the SP41 cable mount swapped.

290009 - SCO Twinloc downclamp 22

SCO Bike Contessa Patron eRIDE 900	Twinloc Int. Bottom	290009	Blue cam
SCO Bike Contessa Patron eRIDE 910	Twinloc Int. Bottom	290009	Green cam

Linkage Overview:

The Patron MY22 has a simple Bearing system that can be easily maintained, there are however some points that should be noted.

There is a new Swingarm repair kit for the Patron:

291731 SCO eRIDE Swingarm Rep kit Patron 22

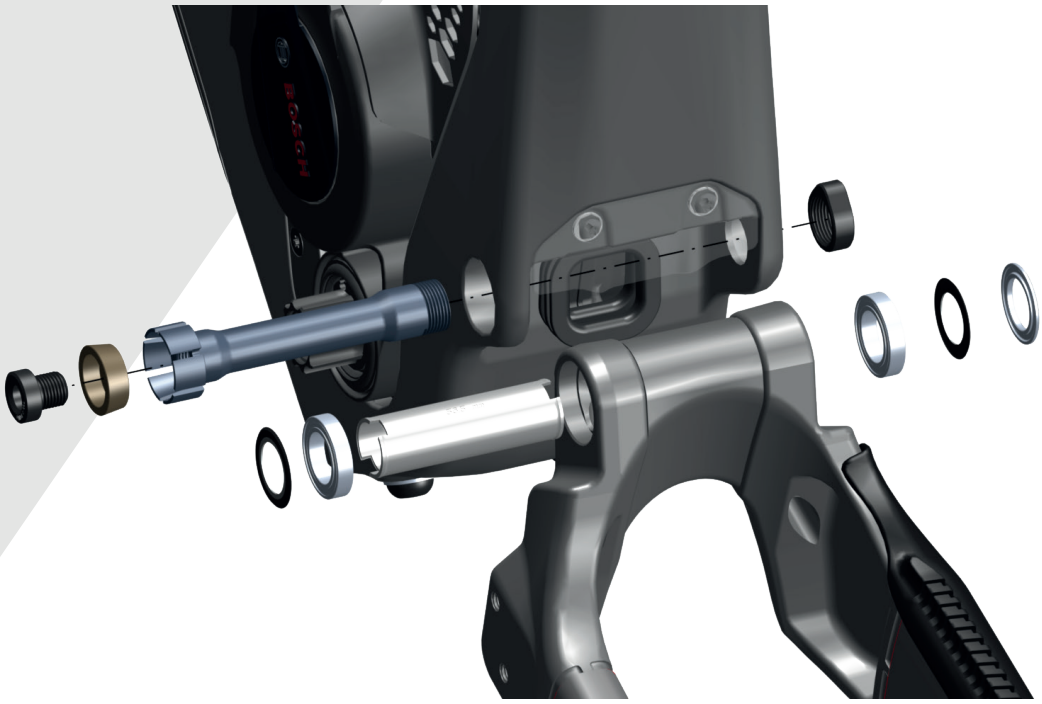
To help with bearing removal and refitting SCOTT offers the following tools:

266321 - SCO Tool set swingarm Spark 17 /Gen 18

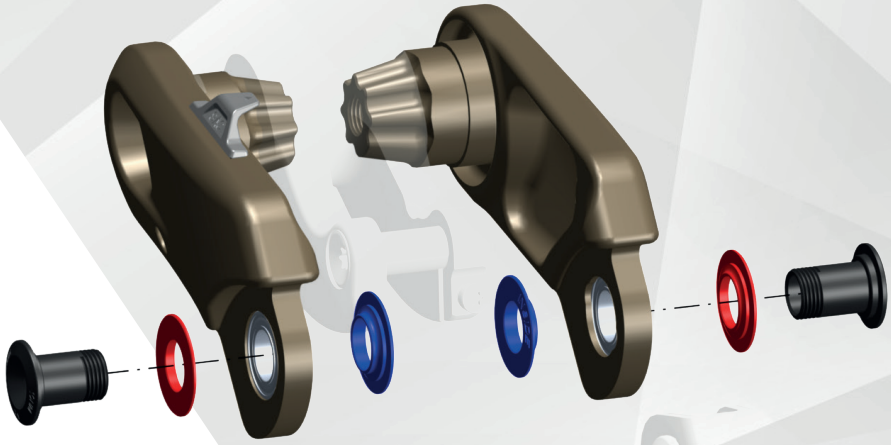
In addition, the following press tool is needed for the main linkage/seattube bearings only:

291227 - SCO Tool main link s-tube press Spark 22

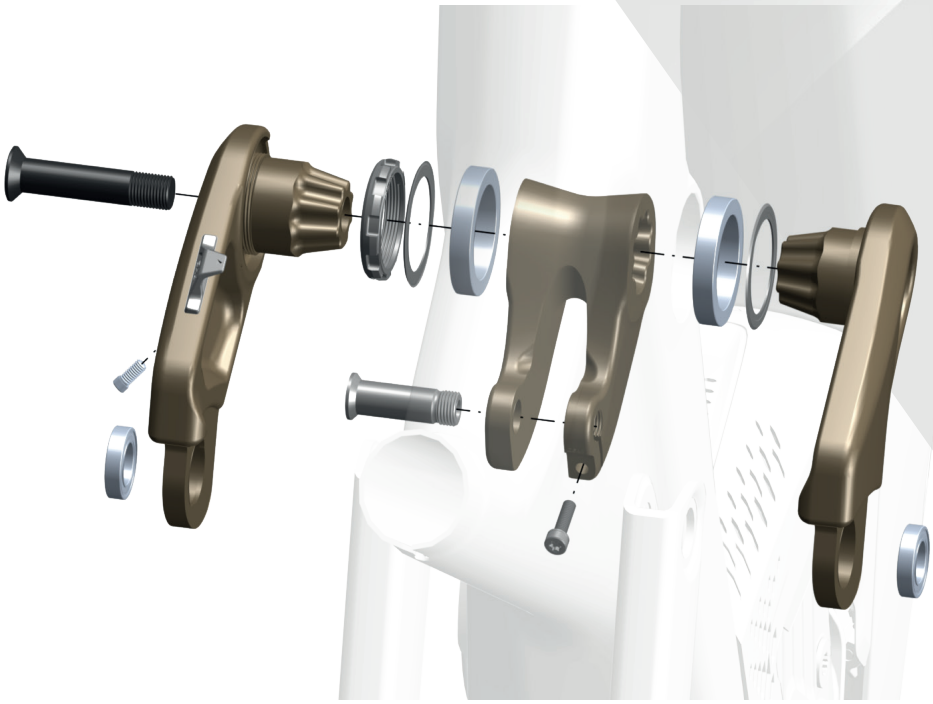
Main Pivot/Chainstay Overview



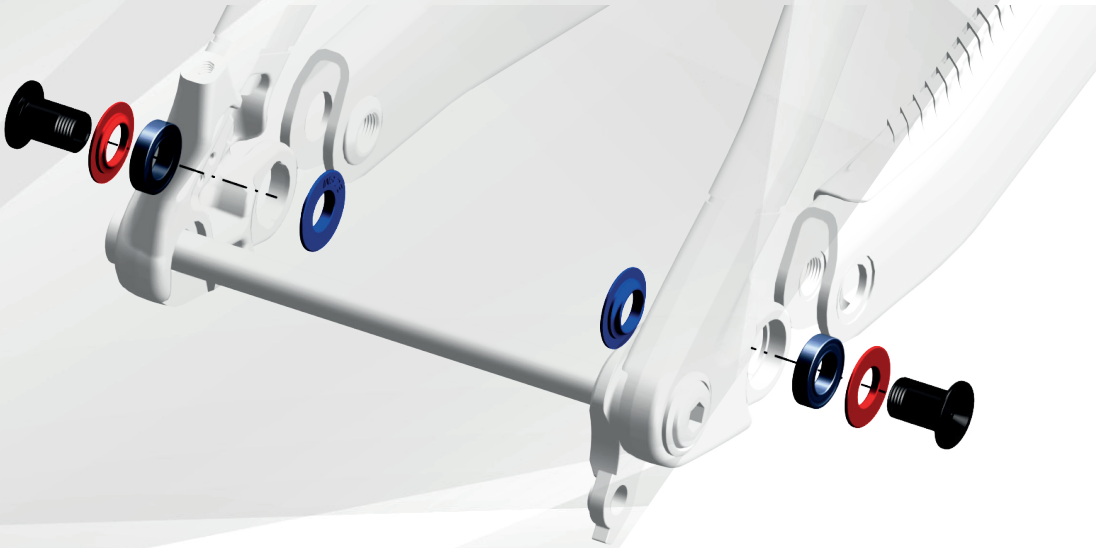
Linkage/Seatstay Overview



Main Linkage Overview

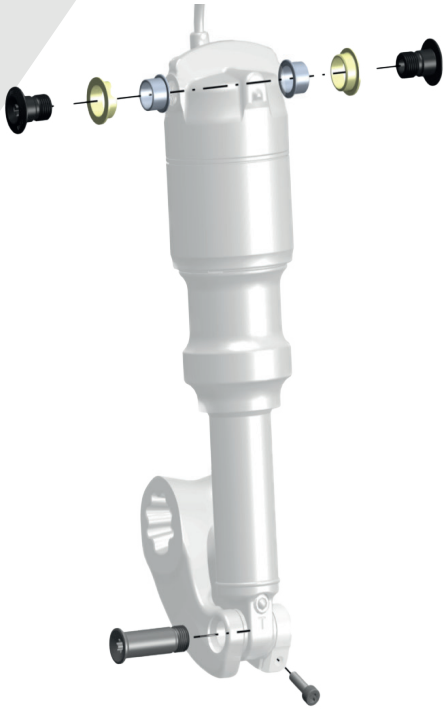


Chainstay/Seatstay Overview



Shock Installation Overview

294281 SCO eRIDE Shock mount bolt kit Patron 22



Linkages:

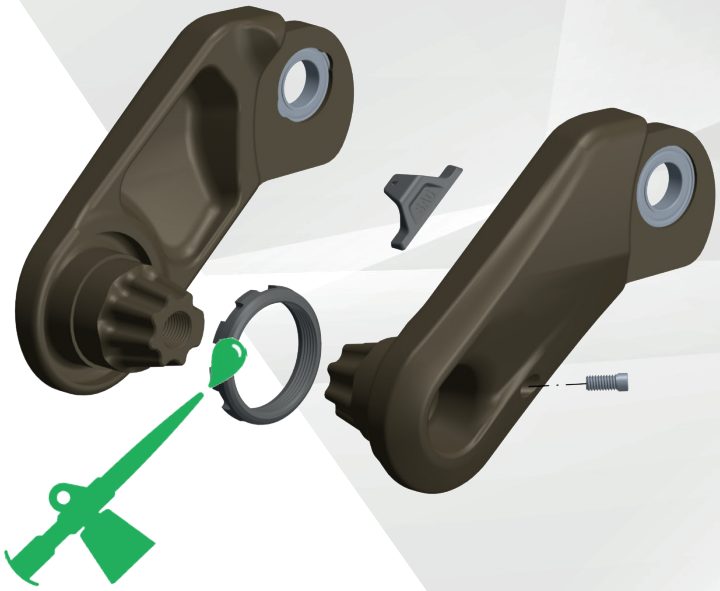
We have opened a separate part number for each coloured linkage.

Alloy only.

Each outer link comes with a preload ring, lock screw and seatstay bearings.

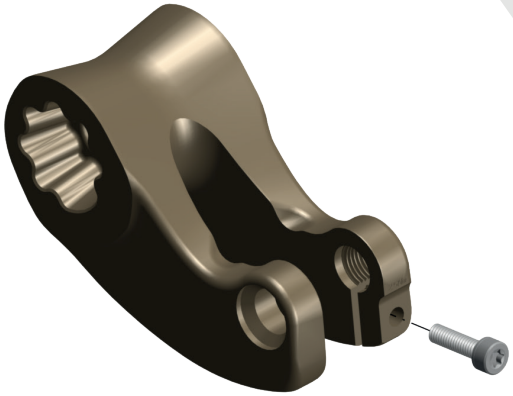
Ensure that the thread on the preload ring has been greased.

290043 SCO eRIDE Linkage outer Patron 22



The inner Link is sold separately:

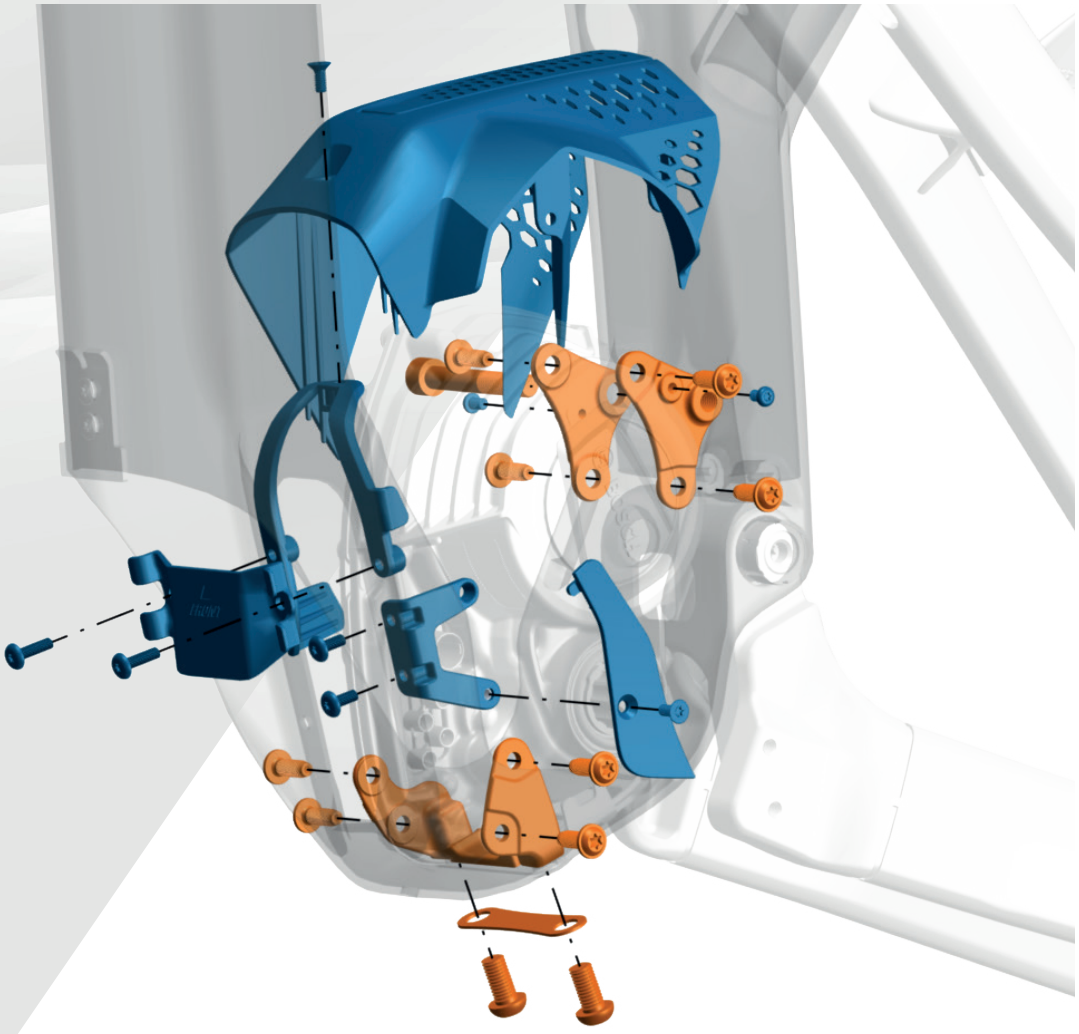
291727 SCO eRIDE Linkage inner Patron 22



Drive Unit & Battery Assembly:

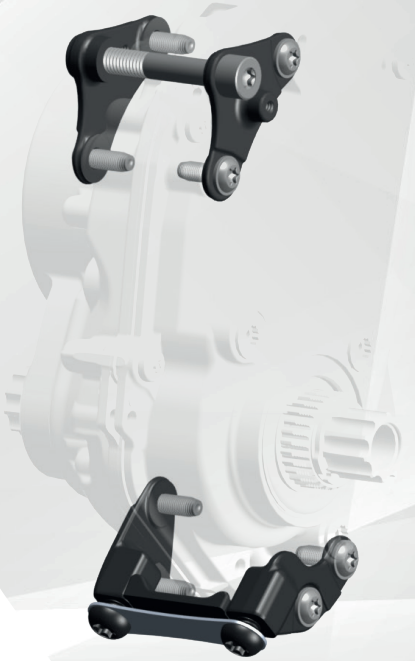
Patron features the new BS3 system from Bosch, with a 750Wh battery.

Drive Unit Assembly



292626 SCO eRIDE Motor mounts Patron 22

The kit includes the T25 M5 and M8 bolts



The motor cover kit contains the cover, fixings and screws. The motor cover is the same for both alloy and Carbon Front triangles.

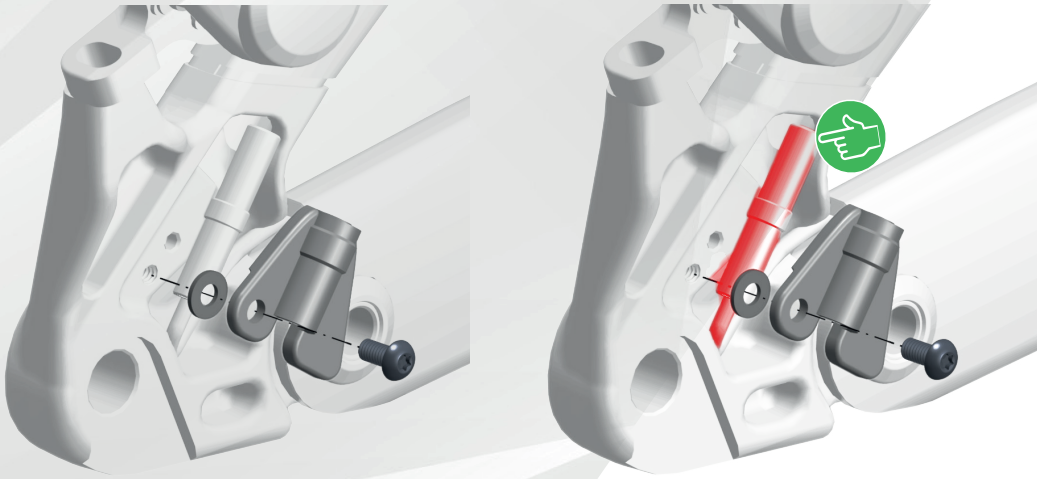
⚠ Remove the motor mounts if the motor needs to be returned to Bosch.

291730 SCO eRIDE Motor Cover Patron 22

Speed sensor including cable is provided by Bosch.
The speed sensor holder is available from SCOTT.

Patron 910 MY22 the Speed Sensor in red has to be turns 180° to face downwards.

292632 SCO eRIDE S-sensor clip Patron 22



Battery Assembly

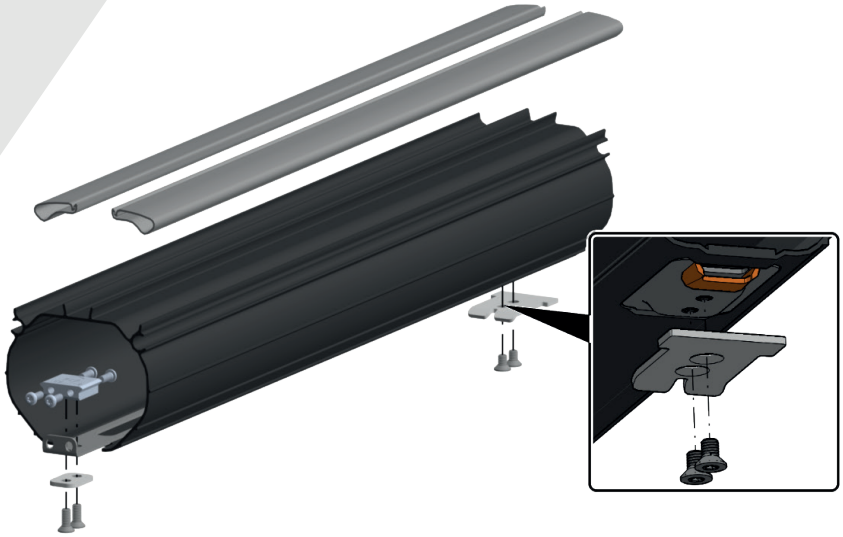
The battery is inserted into a plastic battery tube, which in turn is screwed into the frame.

The battery can only be secured into the frame with a quick release clip. The battery cannot be locked into the frame with the keys, as no lock cylinder is included into the construction.

The battery tube can be unscrewed and taken out of the frame.
This enables you to change the Bosch connection port that is screwed onto the battery tube.

The kit includes screws and fixation plates, but no Bosch parts.

292624 SCO eRIDE battery tube Patron 22



We have two different battery covers, one kit for alloy, and one for carbon front triangles.

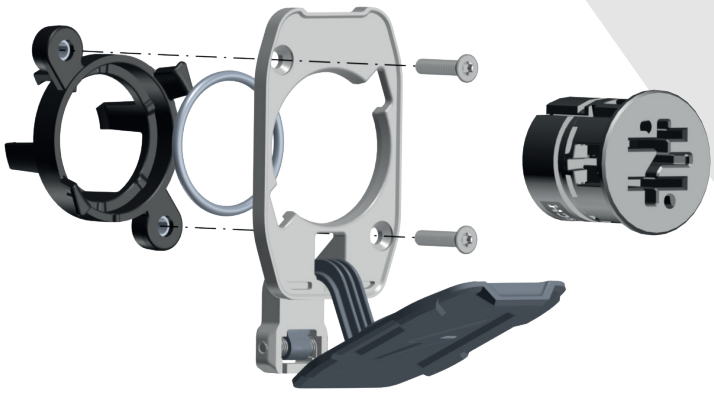
The kit contains fixations and screws.

291729 SCO eRIDE Bat Cover Patron CB 22

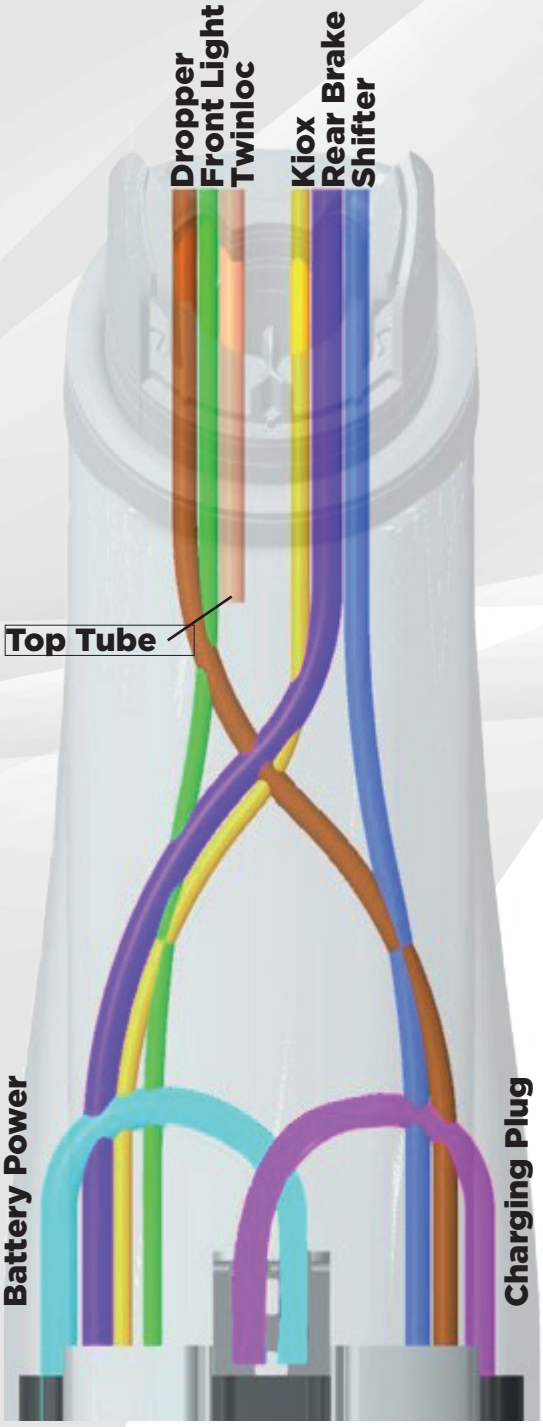
291728 SCO eRIDE Bat Cover Patron AL 22

Charging Port Assembly:

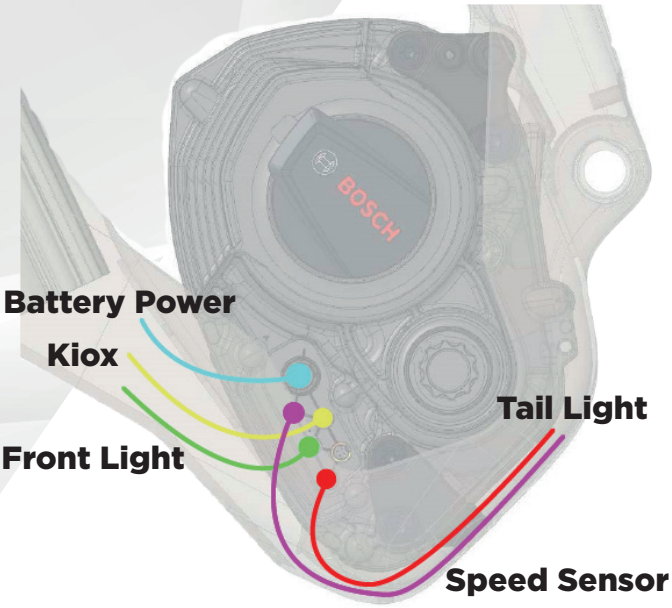
292625 SCO eRIDE Charging door Patron 22

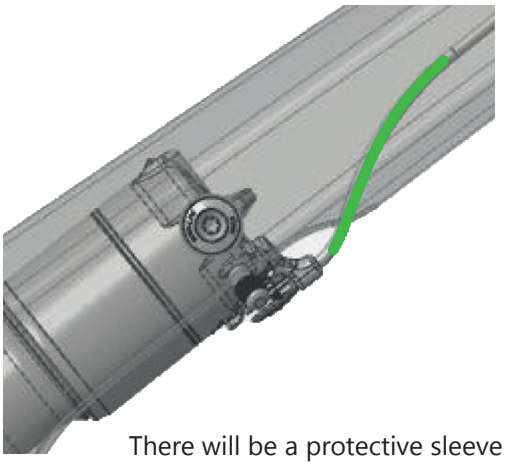


Cable Routing:



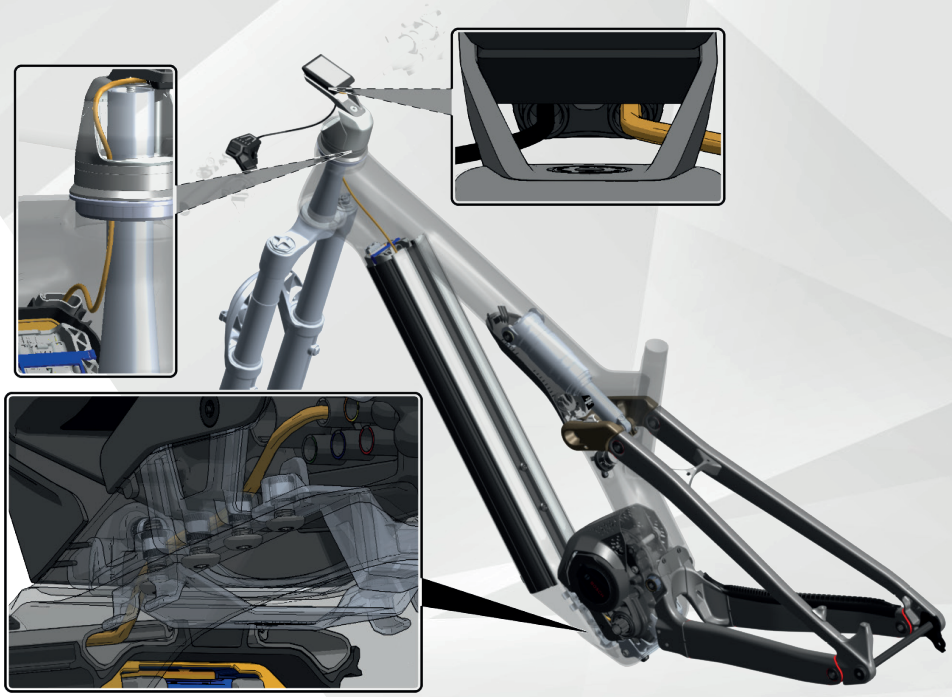
⚠ Do not roll up any excess tail light and speed sensor cables underneath the motor.
Any excess needs to be pushed into the Chainstay or battery tube.



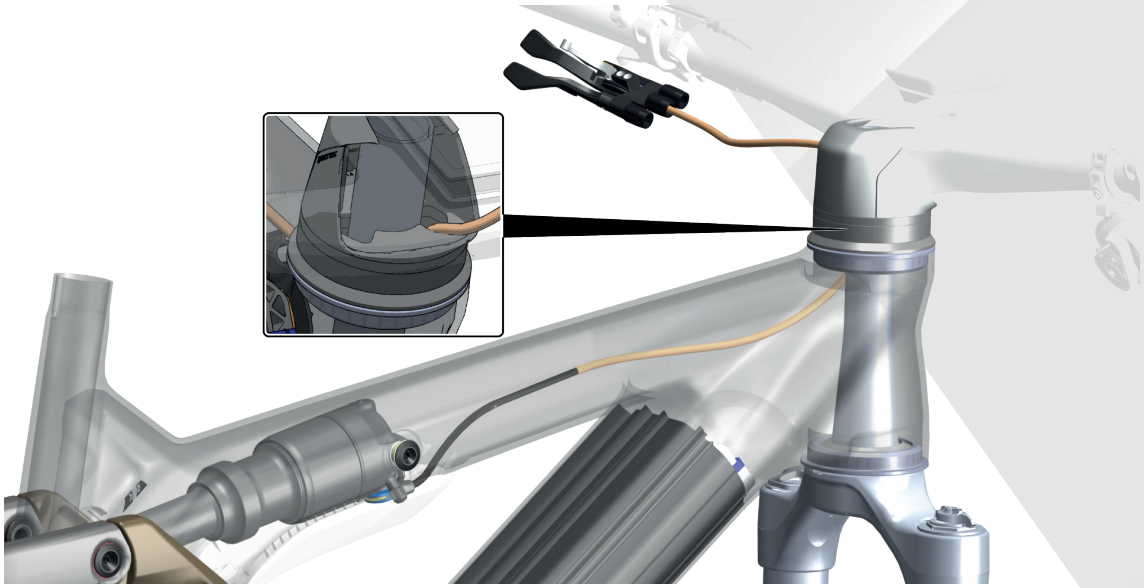


There will be a protective sleeve to cover the twinloc cable to lower the risk of cable rub.

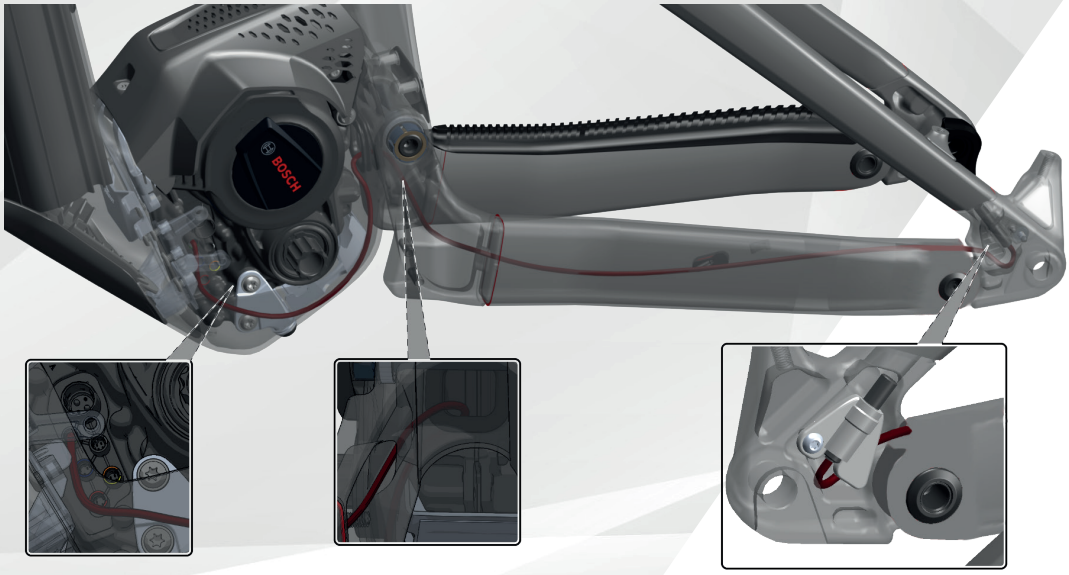
KOIX DISPLAY CABLE ROUTING



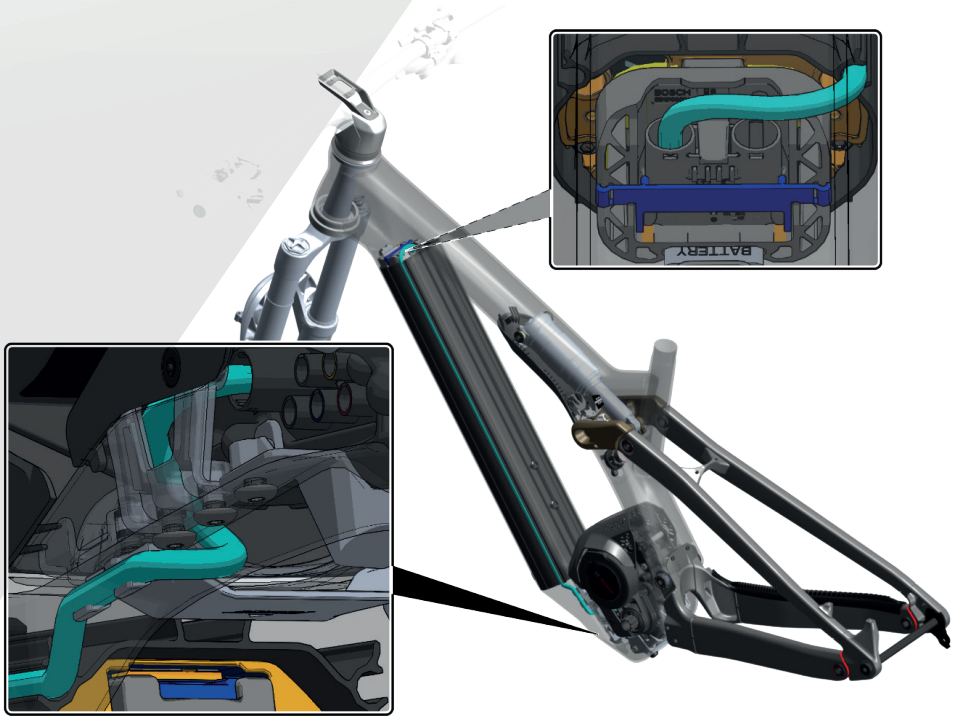
TWINLOC ROUTING



SPEED SENSOR ROUTING

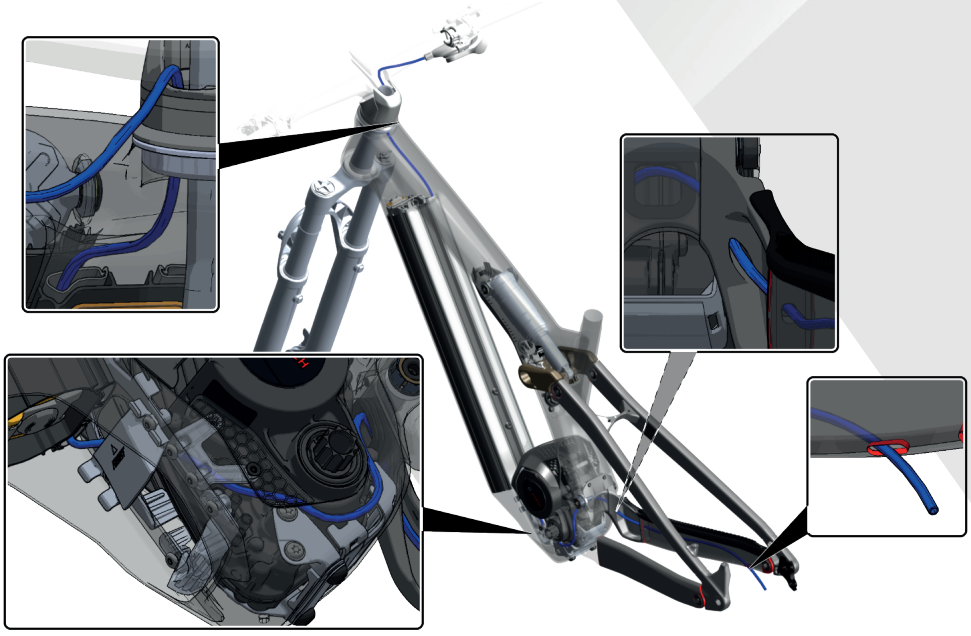


BATTERY POWER CABLE ROUTING



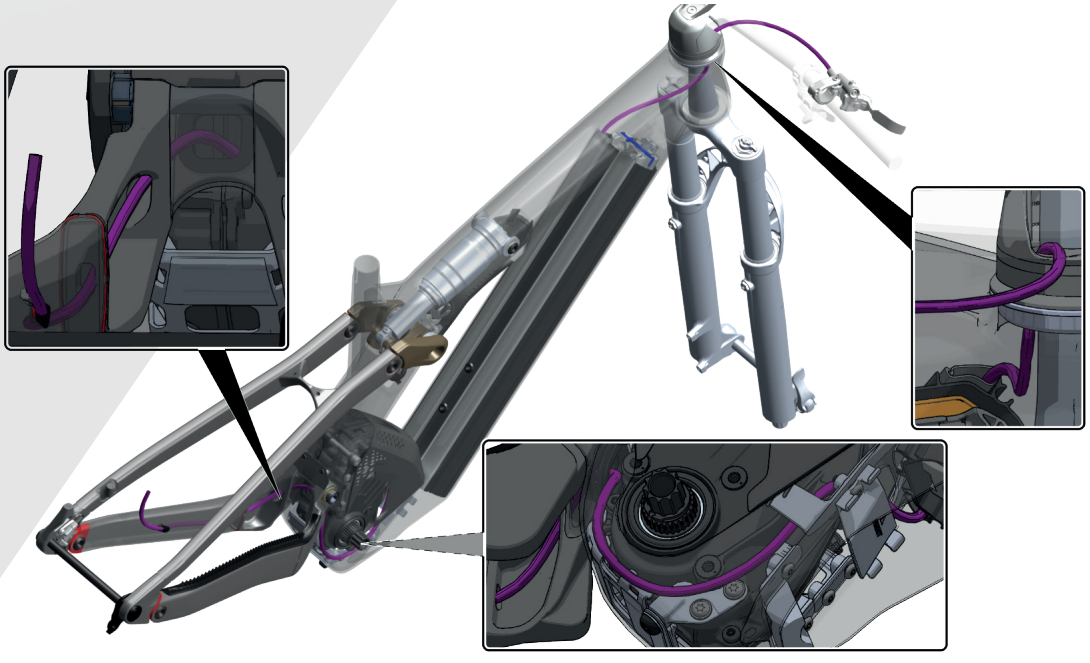
DROPPER POST CABLE ROUTING

REAR DERALLIEUR CABLE ROUTING



CHARGING PLUG CABLE ROUTING

REAR BRAKE CABLE ROUTING



Rear Light:

The Patron will have a rear light mounted on the seatstays.

The aftermarket rear light from Syncros will not included the connection cable. This must be purchased from Bosch seperately.

(Light Cable for Raer Light 1400mm BCH3330_1400)

288342 SYN eRIDE integrated light fender

Rear and Front lights cables will be pre-installed on all bikes (with and without rear light) ex factory. Light settings will as well be enabled.

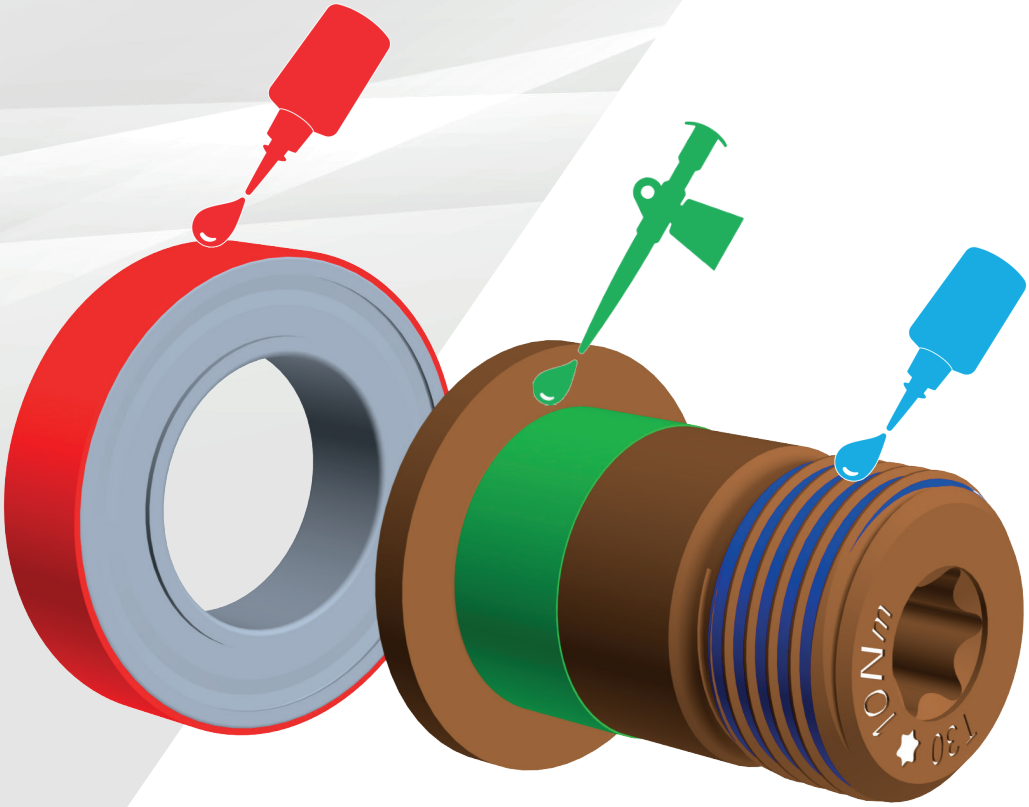
Water Bottle Capacity:

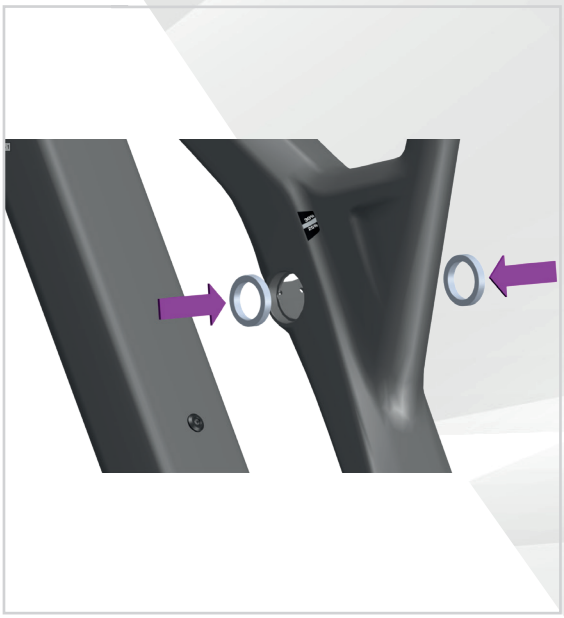
Patron frame is designed to be used with one cage and a 800 ml bottle.

ASSEMBLY:

For the following instructions please follow the tool type and torque settings indicated on each bolt.

Use Bearing Fit, Grease, and Threadloc as showned (all carbon friendly):





01

Push the bearings into the main frame. right and left.

02

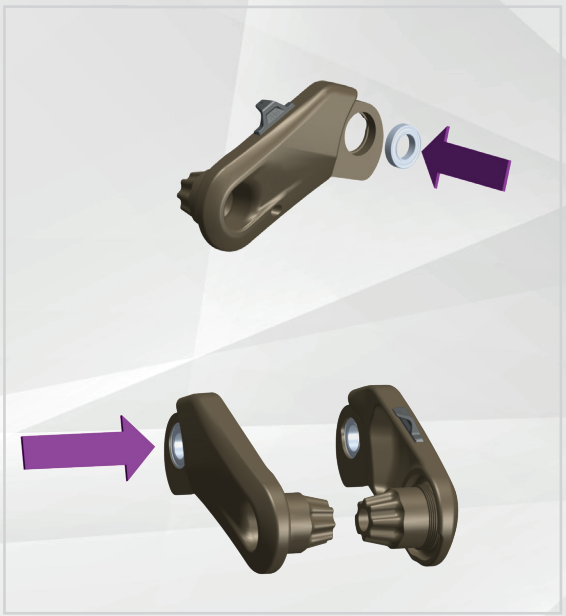
Push the right side bearing into the chainstay.

03

Install the spacer Tube.

04

Press in the left bearing into the chainstay.

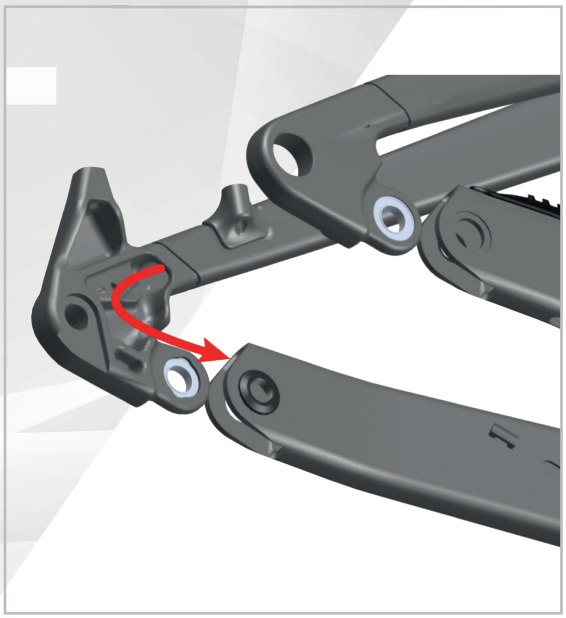


05

Press in the left and right side seatstay bearings.

06

Press the bearings into the linkage bars.



07

If used with the Syncros fender light, pull the light cable (red) through the seatstay. From front ot rear. Remembering to add the seal.

08

Pull the cable out of the rear of the seatstay and back into chainstay.

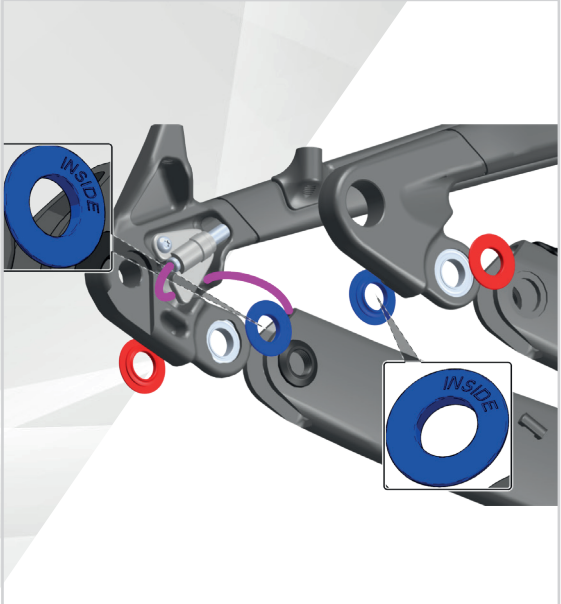
Be careful not to pinch or damge the cable!

09

Mount the Syncros Light fender with the two screws.

10

Guide the light cable (red) through the chainstay. Then pass the brake hose (purple) through and out of the chainstay. Brake hose routing direction depends on brake type.
Check cable routing diagram on previous pages



11

Secure the Speed Sensor to the mount, then attach to the seatstay.

12

Insert the red and blue spacers. Make sure the spacers are aligned in the correct position as indicated.

13

Connect the seatstay & chainstay.

14

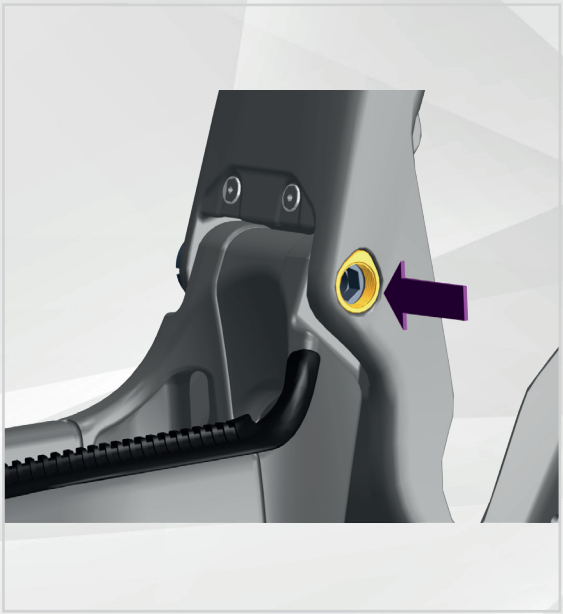
Guide the Brake, Speed Sensor, and Light cables through the chainstay and into the front triangle.

15

Place the dark washers onto the bearings.

16

Install the drive side spacer as indicated.

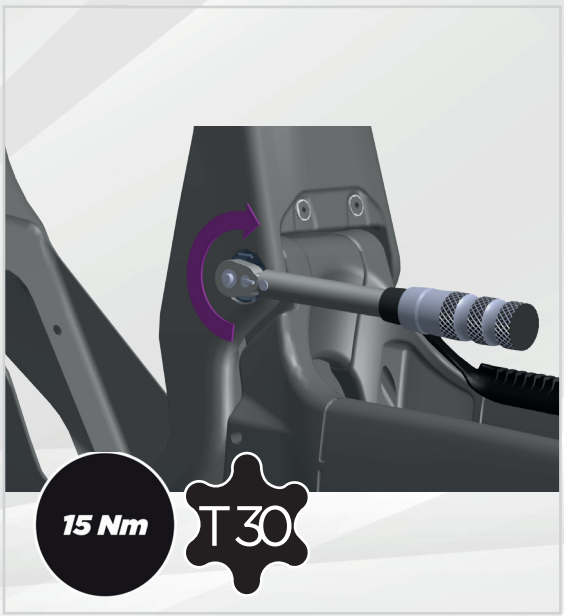


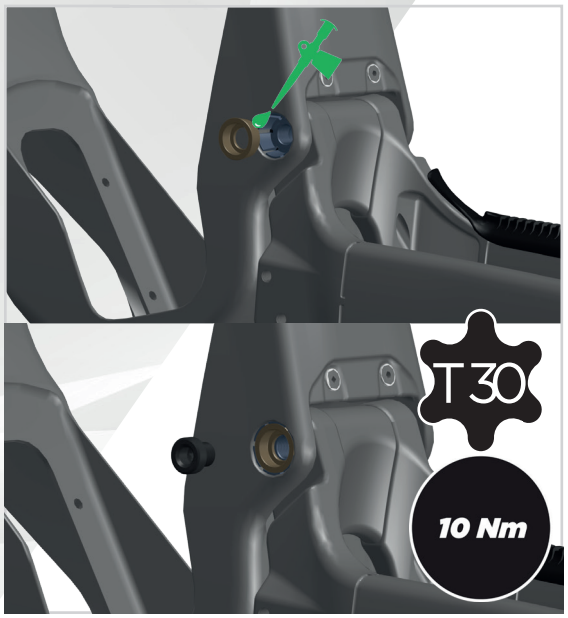
17

Assemble the chainstay and insert the pivot axle.

18

Insert the pivot nut.





19

Tighten Axle Bolt.

20

Insert expansion washer. Then the end bolt, and tighten.

21

Mount rear brake, torque to manufacturers recommendation.

22

Insert the Igus bushings for the shock in the front triangle.

NO GREASE

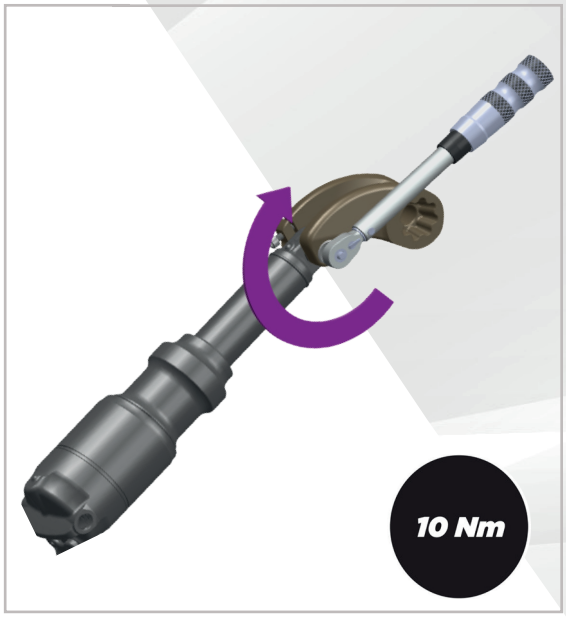
23

Loosen the grub screw on the linkage.

24

Connect the linkage to the shock.

Make sure the linkage is correctly positioned!

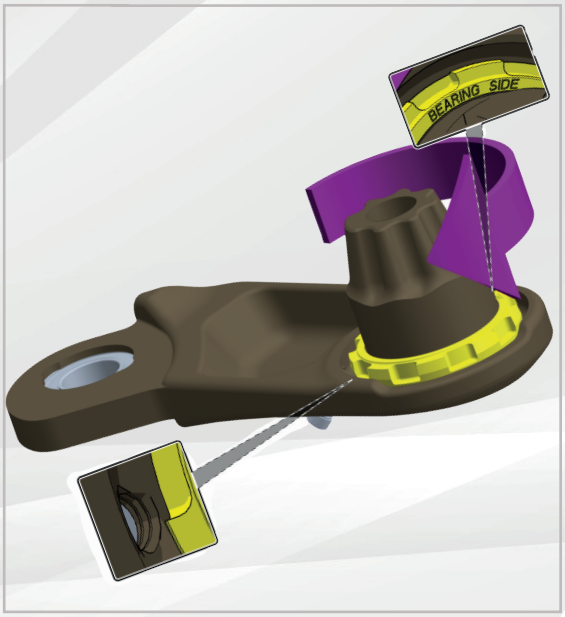


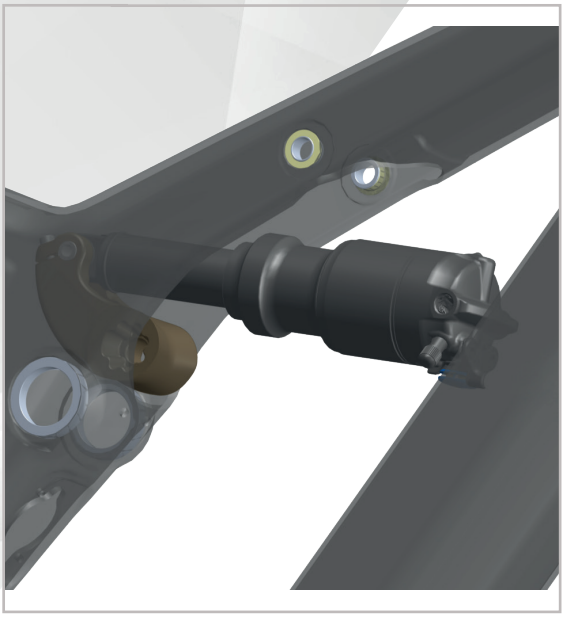
25

Tighten Shock Bolt.

26

Tighten the lock grub screw.





27

Set the preload ring.

Take note of the indications for the orientation and positioning of the pre-load ring on the linkage.

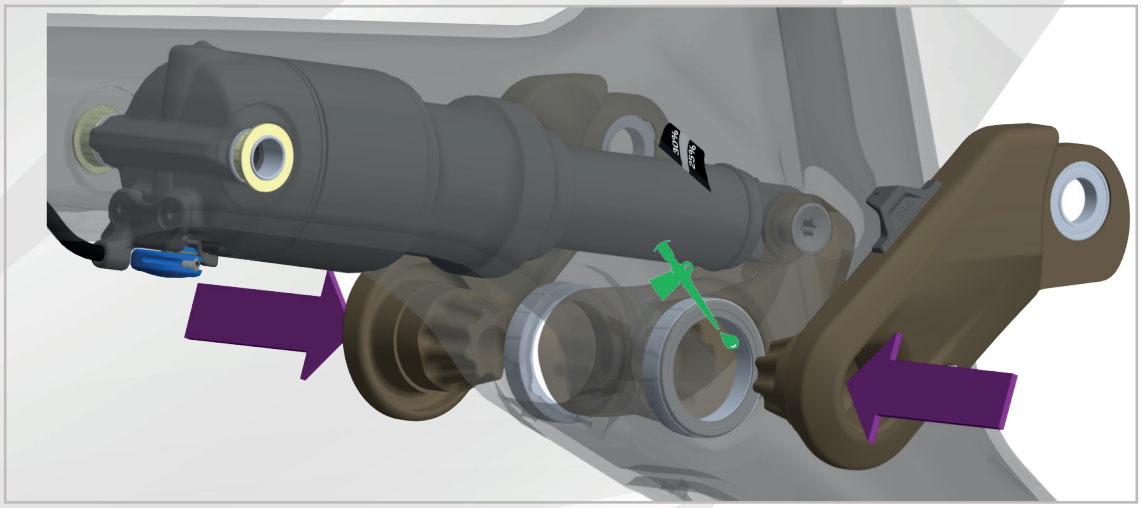
28

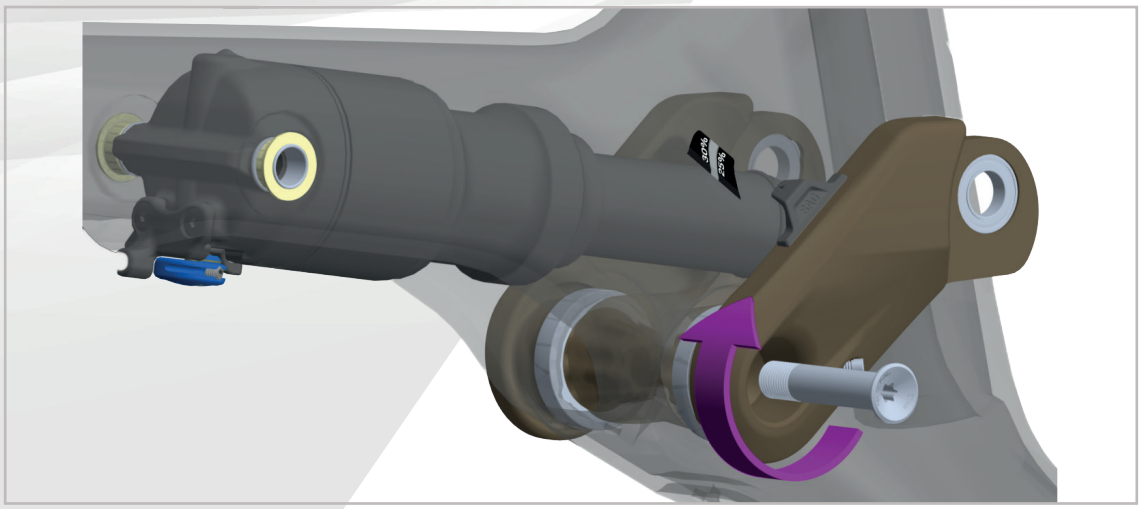
Insert the inner linkage and shock into the frame.

Make sure the linkage is correctly positioned!

29

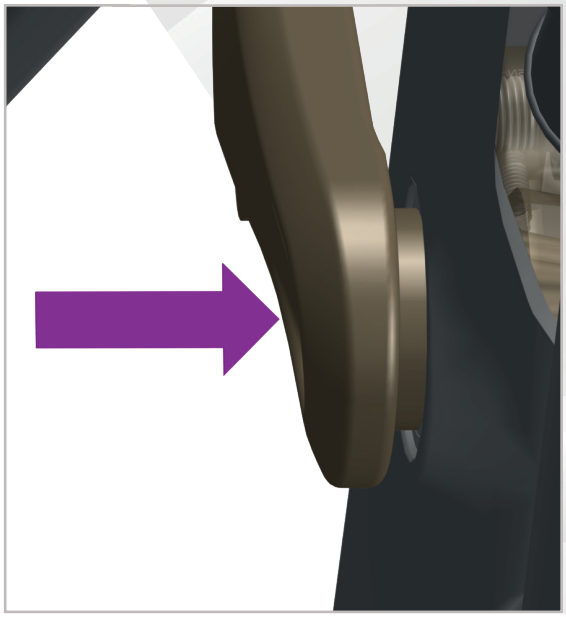
Place the washer on the bearing, making sure the lighter golden side is outer most.

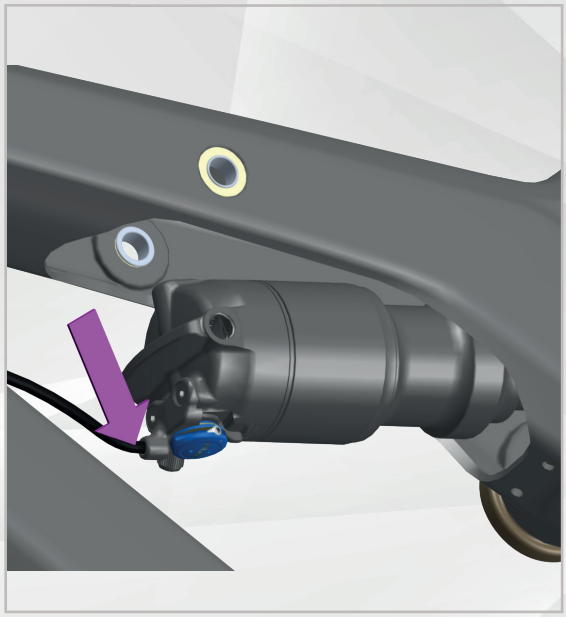




30

Assemble the right and left outer linkages to the inner linkage. Hand tighten the linkage bolt outer. Don't set final torque.





31

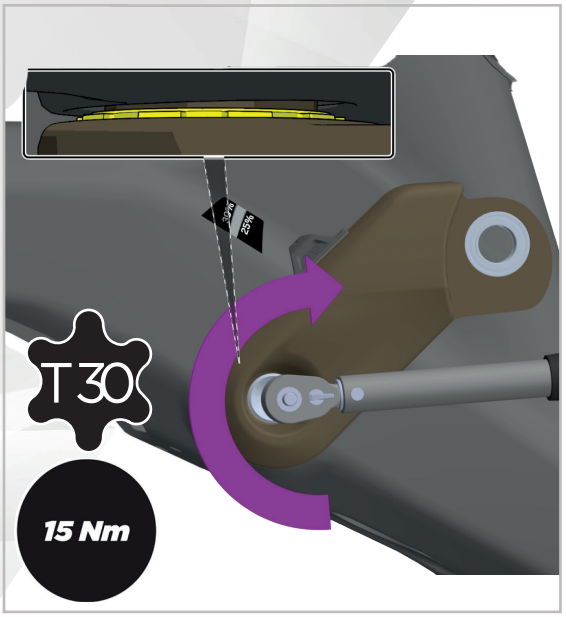
Hand push drive-side linkage bar in position. There should be NO GAP between linkage bar and main frame bearing seal.

32

Lower the shock and attach the twinloc cable.

33

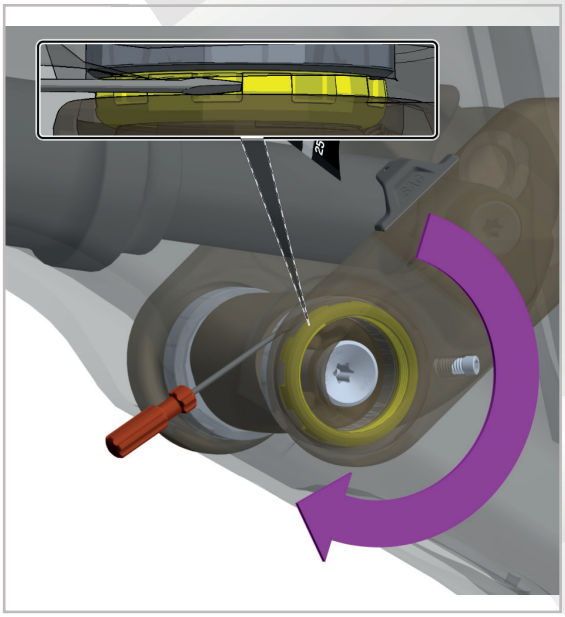
Place the shock into the correct position. Lightly tighten the trunnion bolts. Do not set the final torque.

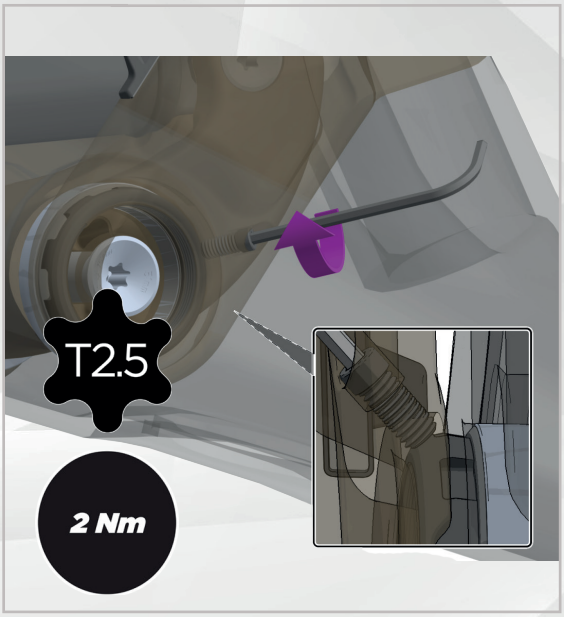


34

Set the torque on the linkage bar on the non drive side. This should be done after the front shock bolts are fitted to prevent the linkage pushing against the inside of the frame.

A small gap between the non drive-side linkage bar preload ring and main frame bearing seal is needed.





35

Set the preload ring on the non-drive side to close the gap to main frame bearing seal, then screw in linkage grub screw.

36

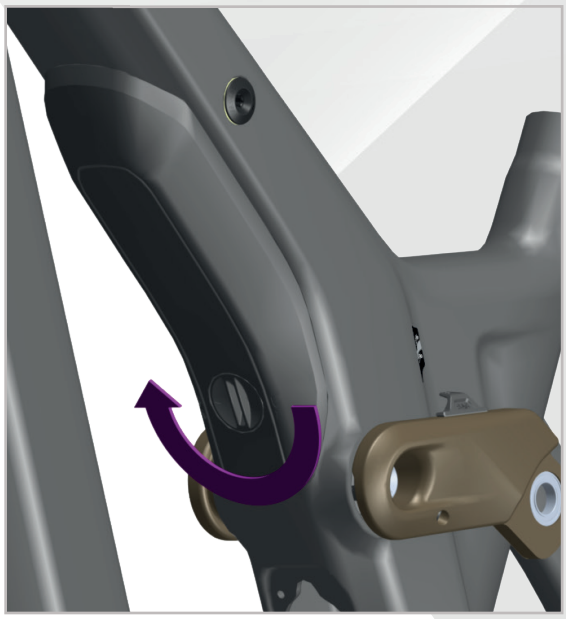
Tighten trunnion shock bolts.

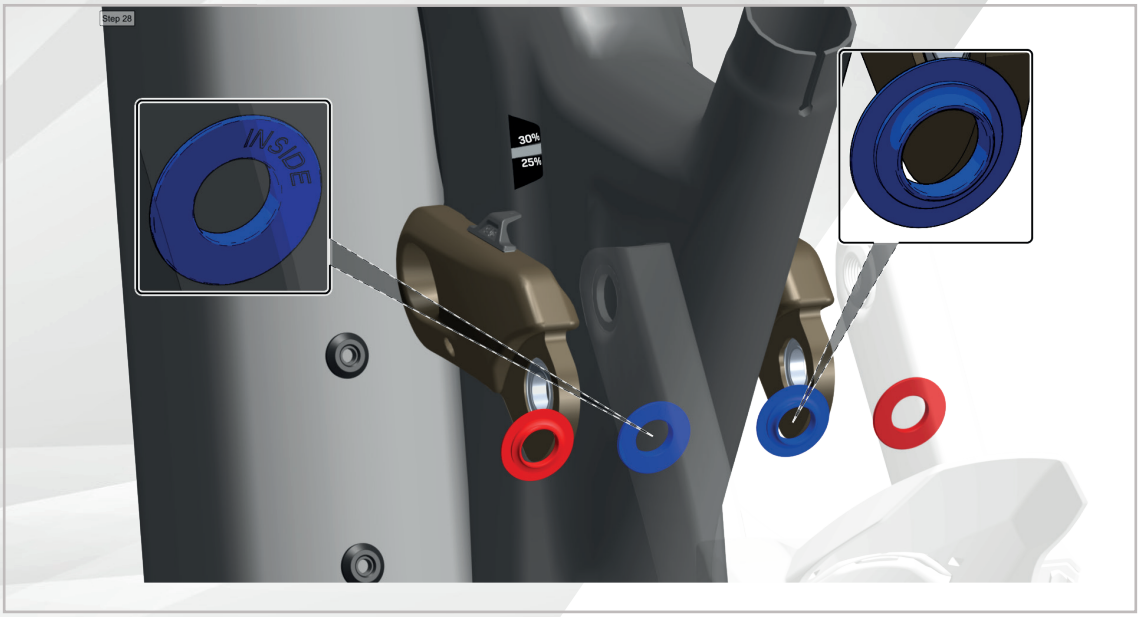
37

Install the shock cover bracket.

38

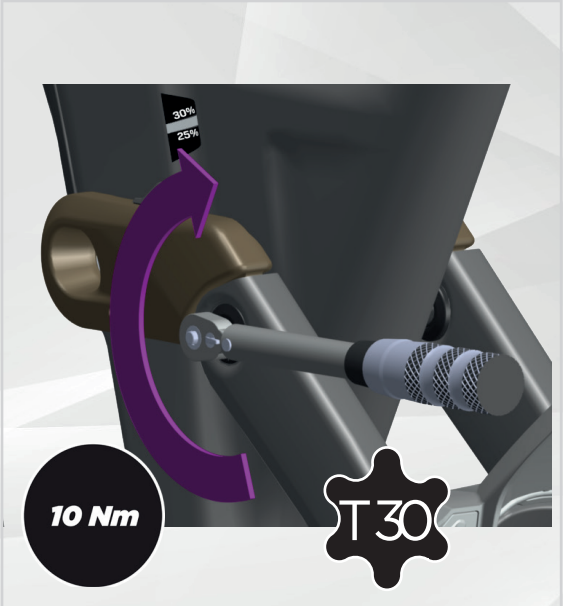
Install the shock cover, nose first, twist lock at the rear.





39

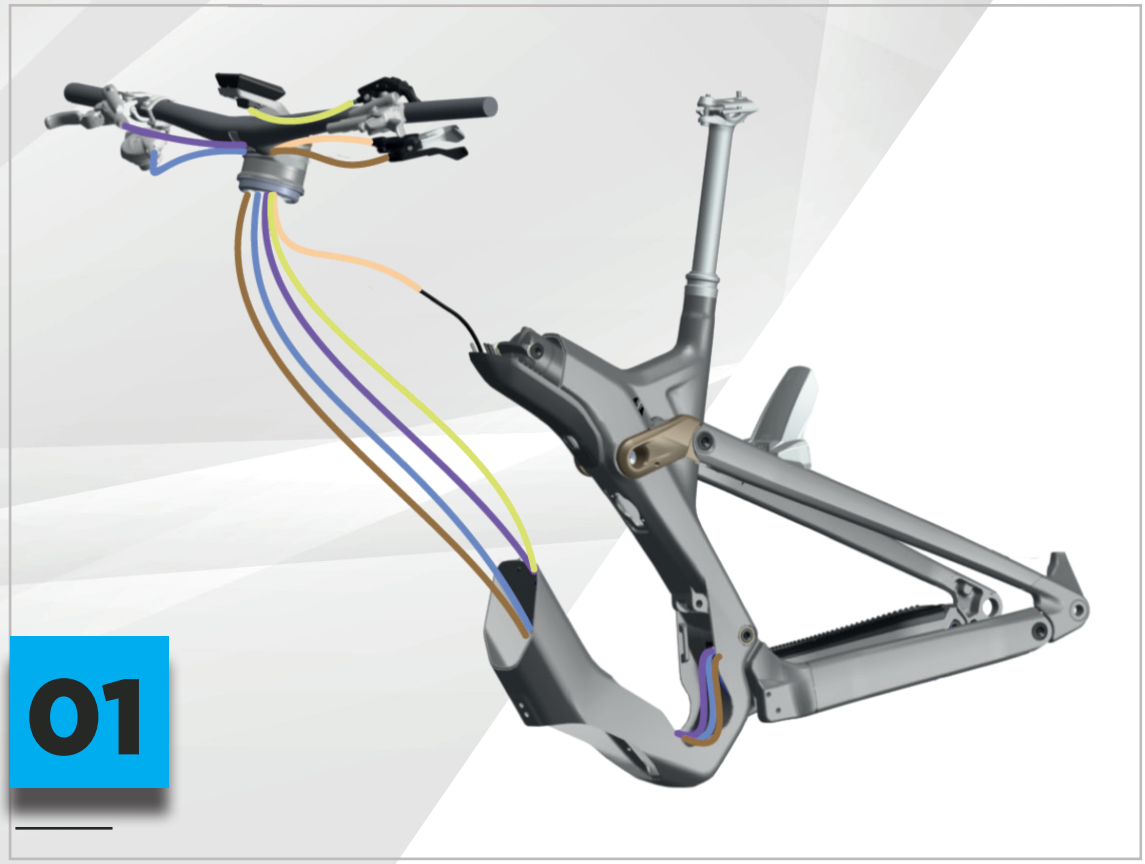
Install the red & blue washers (pay attention to the orientation of the washer as indicated). Connect the seatstays to the linkages.



40

Apply the bolts and tighten.

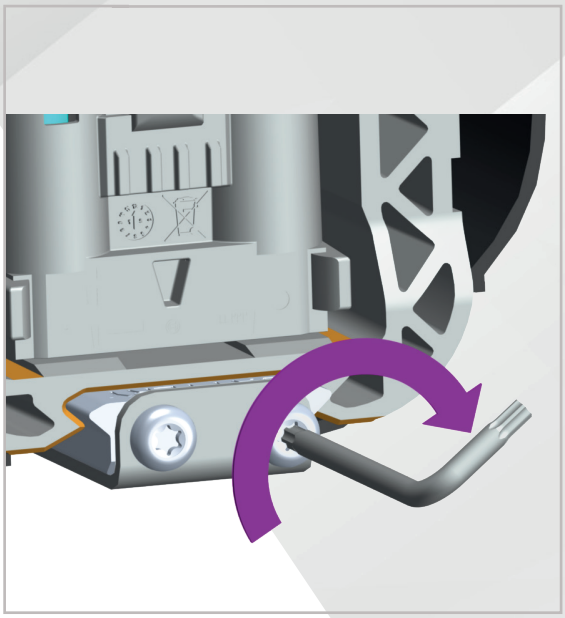
Battery Assembly:

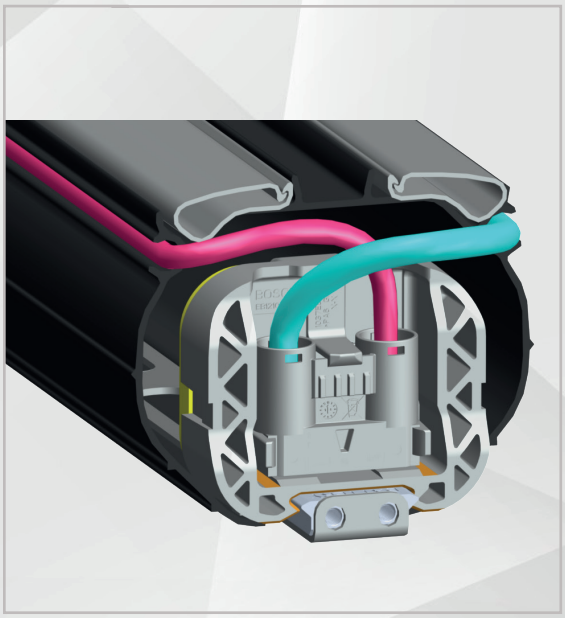


01

Route Rear Derailleur, Rear Brake, Dropper Post, Battery power cable (battery to motor), and the Kiox display cables through headset.

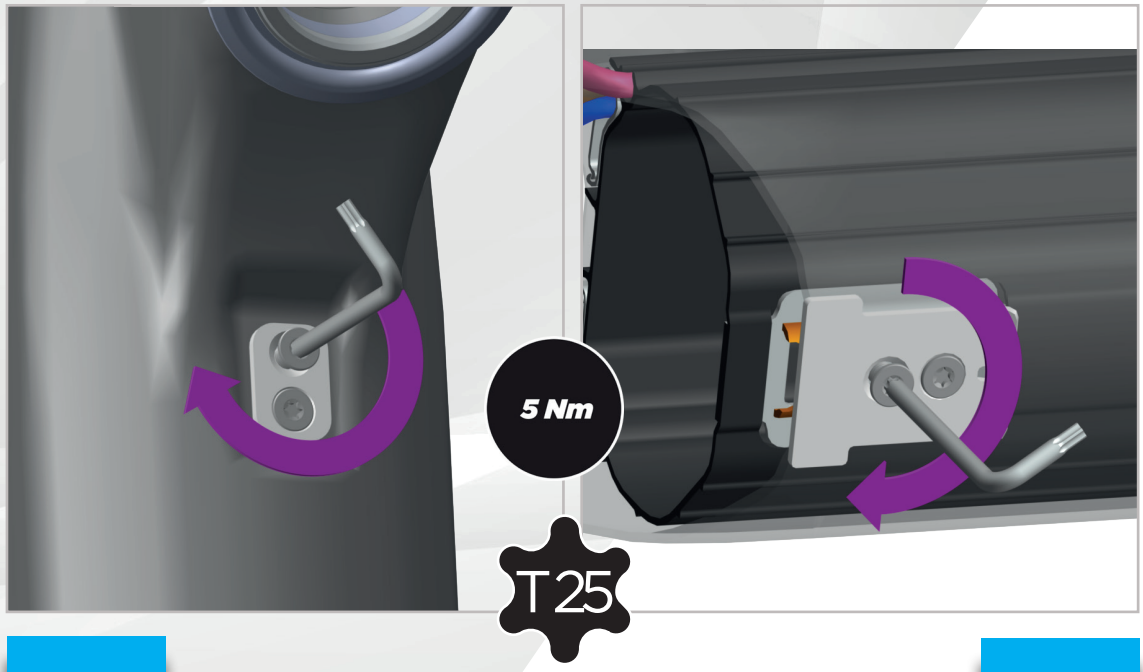
Please also check the routing on previous cable routing pages





02

Connect the battery head connection to the battery tube. Place all the cables into the grey channels of the battery tube. Apart from the charging plug cable (purple) & battery power cable (blue).



03

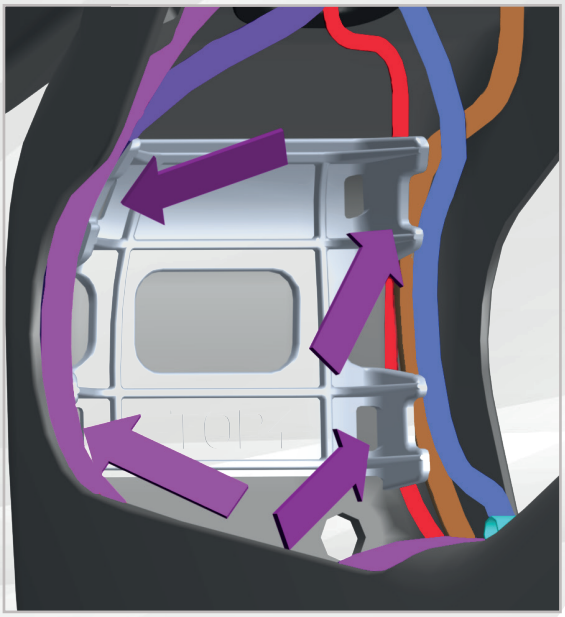
Secure the battery tube front bolt.

04

Attach the battery tube lower bolts and battery lock bracket.

05

Install the charger plug housing, both parts. Thread the the cable through the housing and connect to the charger plug head cable. Press the charger plug head into the housing.



06

Secure the cables with zip ties to the cable guide plate above the motor bracket in the seat tube.

NOT DROPPER!

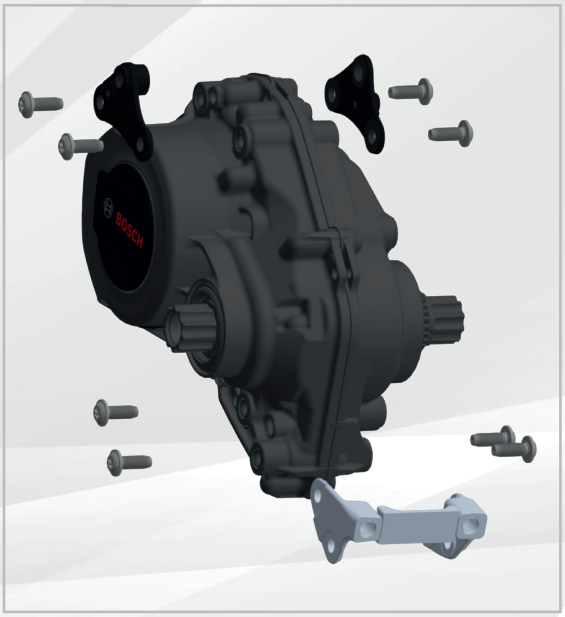
07

Attach the plug cover bracket.

08

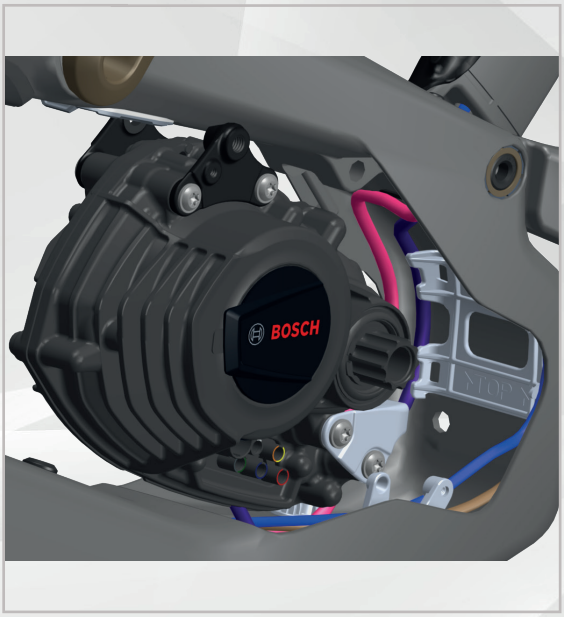
Fix the battery cover mount into place.

Motor Assembly:



01

Assemble the motor bracket bolts.



02

Connect the display cable, light cable, and drive cable to the drive unit.

03

Install the motor into the frame.

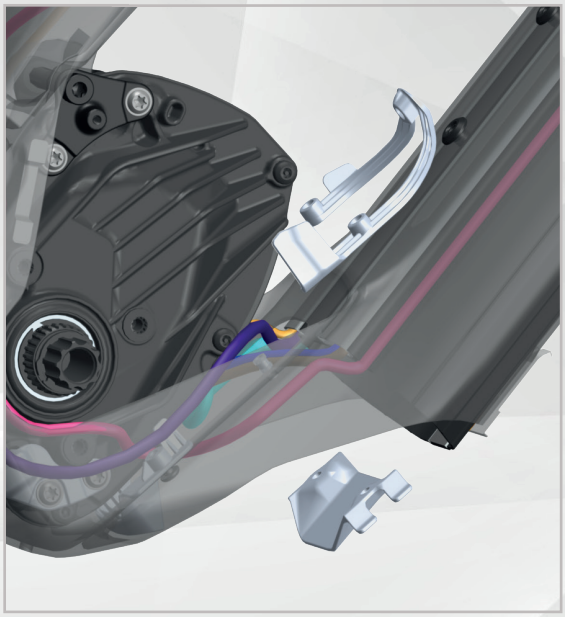
04

Insert the motor attachment bolt.

Do not tighten.

05

Place and tighten the bottom motor bolts.

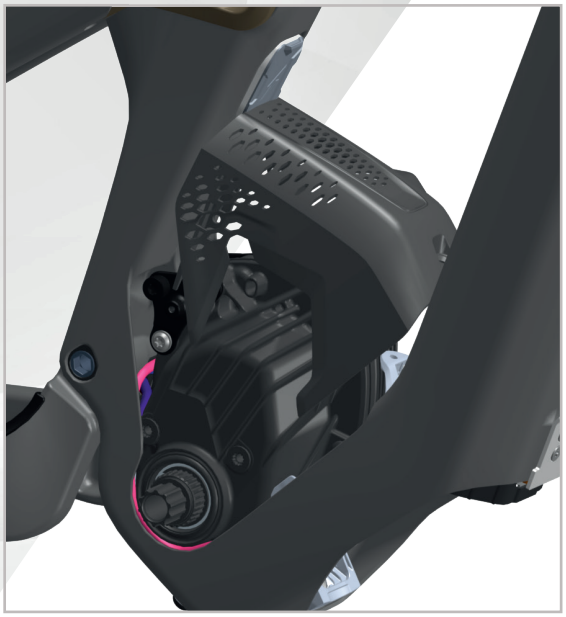


06

Tighten top motor bolt.

07

Install the upper motor cover bracket.



08

Install the lower motor cover bracket.

09

Place motor cover over the motor.

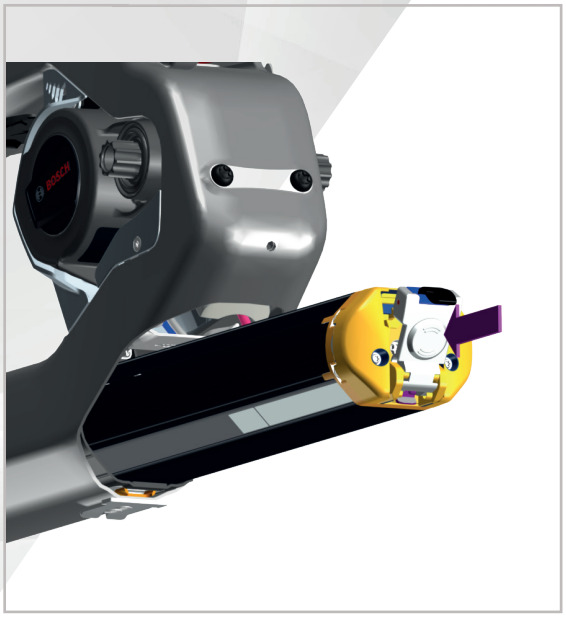
10

Fix in place both sides, left & right.

11

Attach the plug cover.

Battery Installation & Removal:



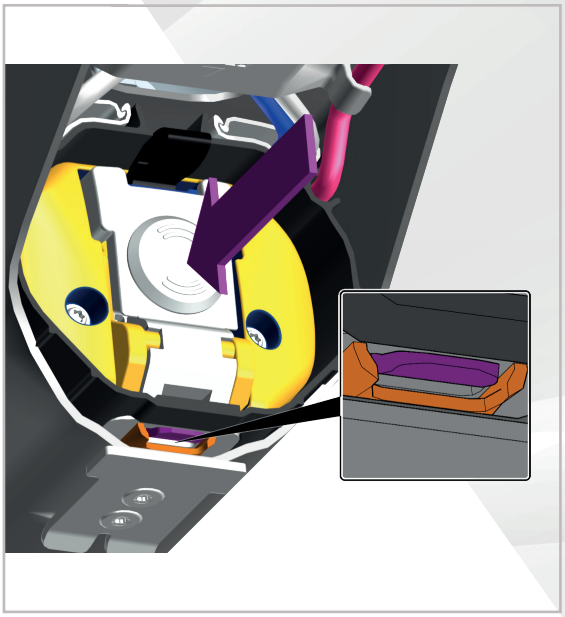
01

Open the battery cover.

02

Slide the battery into the battery tube.

Make sure the battery is the correct way around!

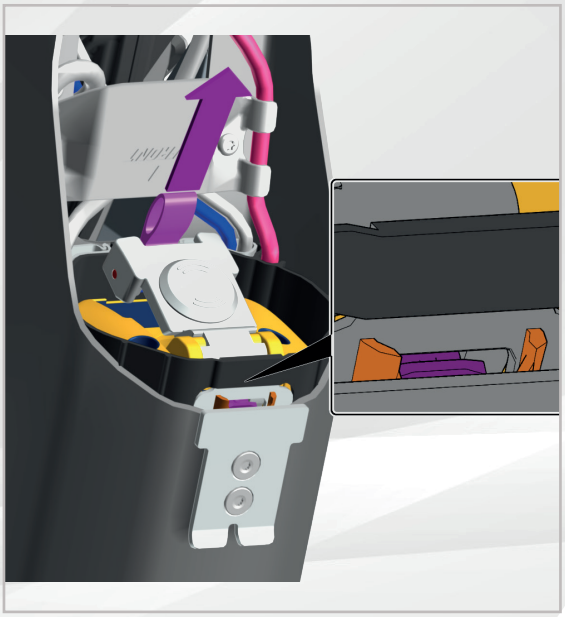


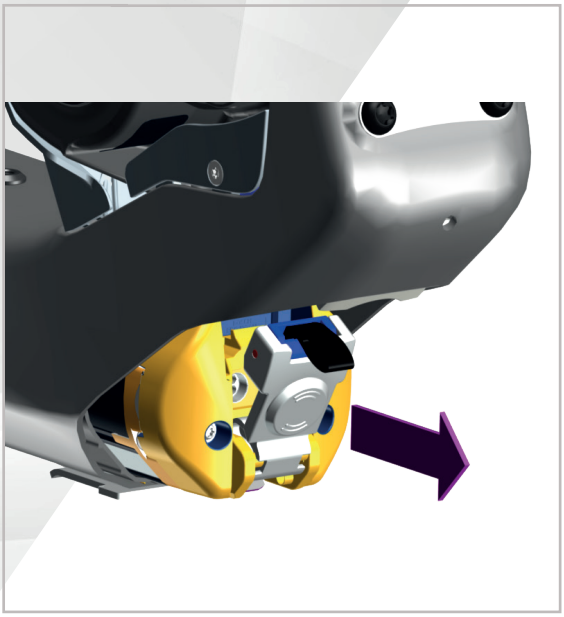
03

Close the battery door and make sure the catch is engaged correctly.

04

Re-install the battery cover and tighten.





05

To remove the battery, unlock the cover by pullimg on the tab. Making sure the catch has disengaged.

06

Slide the battery out of the battery tube.

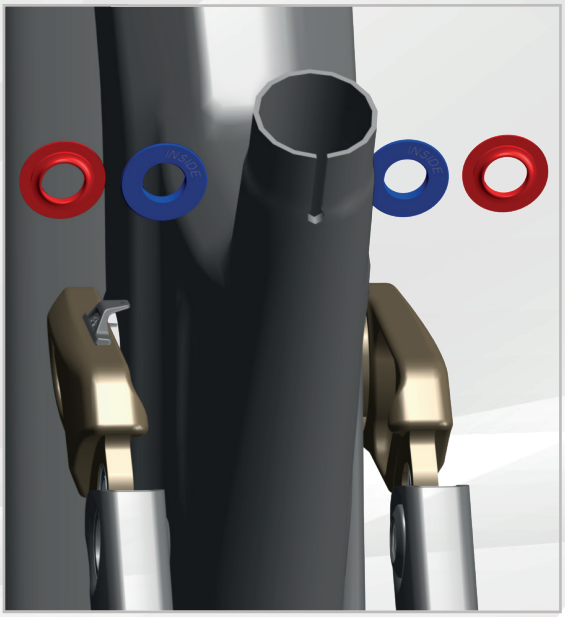
Shock Removal:

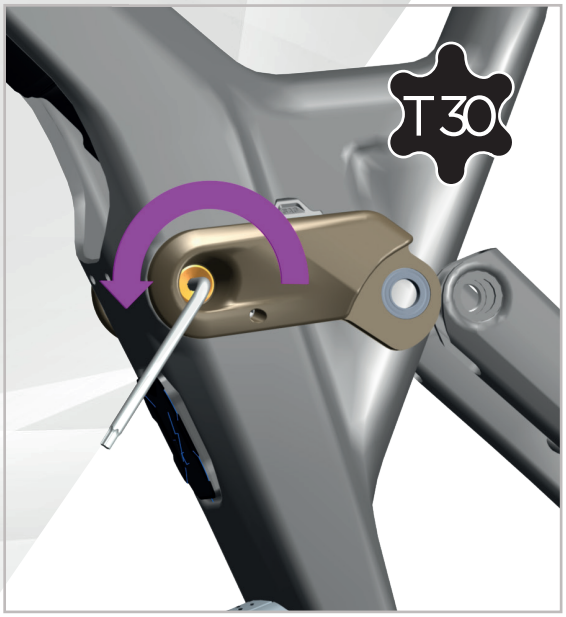
01

Remove the shock cover.

02

Unscrew both linkage/seatstay bolts, left & right sides.



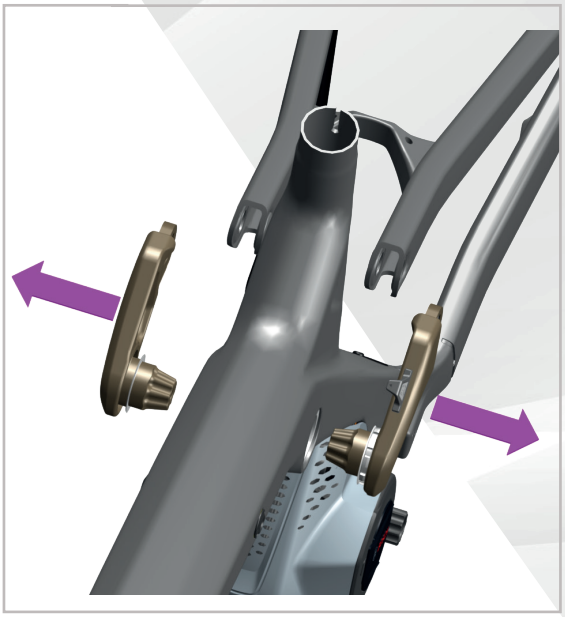


03

Remove the spacers.

04

Unscrew the main linkage bolts both sides.



05

Remove linkages completely.

06

loosen and remove the twinloc cable.

07

Unscrew the shock bolts both sides.

08

Lower out the shock, and remove the inner linkages. First by releasing the grub screw then the shock bolt.

SILENCE & AXIS eRIDE

⚠ Please note, that no parts are to be changed or replaced unless they are the same as the original parts

Claiming Procedure:

1) Claim the frame as normal via B2B.
2) You must then send a copy of the customer's Certificate of Conformity (each bike has its own COC) attached to the claim/C4C ticket.
3) Once the claim has been accepted you must send proof of destruction. The claim will not proceed further without this proof.
4) The replacement frame will then be sent to SCOTT DE so the VIN number can be engraved onto the new frame.
5) The frame will then be shipped.

ASPECT eRIDE
CONTESSA ACTIVE eRIDE

The ASPECT eRIDE stays the same from MY20and MY21, with no updates from previous years.

All Aspect eRIDE models come with pre-installed light cables
Range booster compatible – see range booster chapter in MY20 techbook.

Aspect eRide is fender and rack compatible. The front fender can be mounted with the original equipped SR Suntour forks.
E-MTB FENDER EQUIPMENT REQUIRES TO REPLACE ORIGINAL TIRES TO A MAX WIDTH OF 2.35"

280313 SCO Fender set Sub Cross 21/Aspect eRide
288544 SCO Rear rack AXIS eRide/SubCr.SnapIt2.0

The Axis ERIDE EVO TOUR FS shares the same frame as the Patron. Please see the Patron chapter in this tech book for spare parts and assembly manuals.

The AXIS eRIDE EVO TOUR FS has 140 mm of travel instead of the Patron 160mm travel. This means the AXIS eRIDE EVO TOUR FS has a different shock compared to Patron.

We will not carry this shock as a spare part, in case of any warranty claims or service requests the shock must be sent to FOX service center for repair.

The AXIS eRIDE EVO TOUR FS is equipped with a kickstand, fenders, rack and lights.

265597 SYN Kickstand Fully E-MTB 2 bolt
288545 SCO Rear rack AXIS eRide Evo SnapIt 2.0
272471 SCO E-bike fender E-Axis 19 Wty

The lights are available from your Supernova distributor.

AXIS eRIDE EVO TOUR

Axis eRIDE EVO features the new BS3 system from Bosch with 750Wh battery, and it shares spare parts with Bergamont.

Hanger & Axle:

Axis eRIDE EVO frame is boost 148mm and has only one rear hanger, this is the SRAM UDH. This is available from your SRAM supplier; it is only available via Scott if you do not have a SRAM supplier in your region.

The AXIS eRIDE EVO has only one rear hanger, this is the SRAM UDH.
This is available from your SRAM supplier, it is only available via Scott if you do not have a supplier in your region.

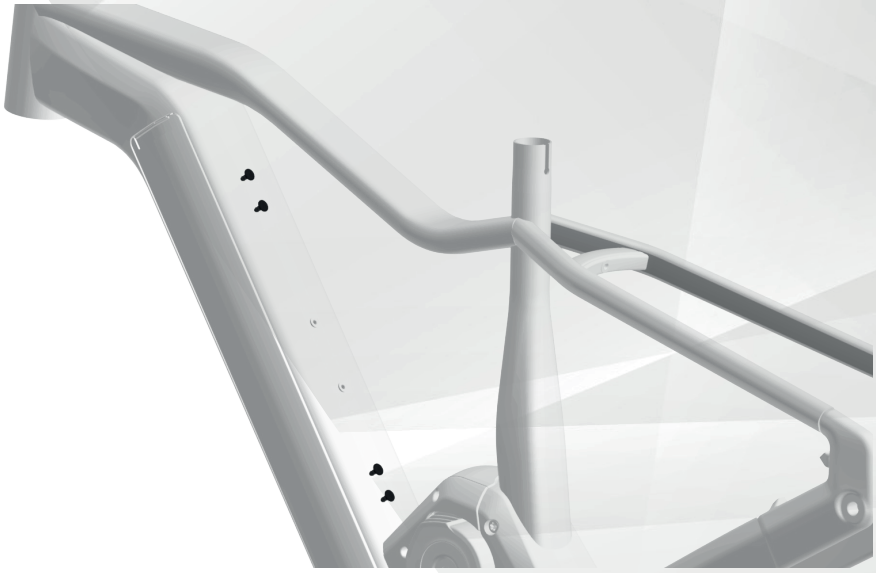
286000 - SCO Dropout Sram UDH 21

290016 - SCO Axle RWS Rear 148x12 Spark Plug 22

Battery:

This frame is NOT Range booster compatible. There are mounts in the downtube for a possible future Range Booster solution. The mount holes can be plugged with:

290046 SCO eRIDE Range boost plug Axis Evo 22



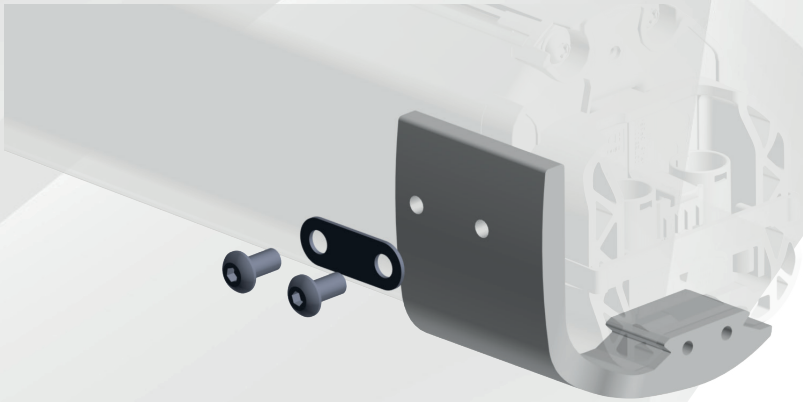
There is a dedicated SCOTT cover for the battery (Bosch EB12.100.00W) to fit the frame. The kit contains all screws and mounts.

290044 SCO eRIDE Bat Cover Axis Evo 22

*opens to the side

The Battery mounts are shared with Bergamont

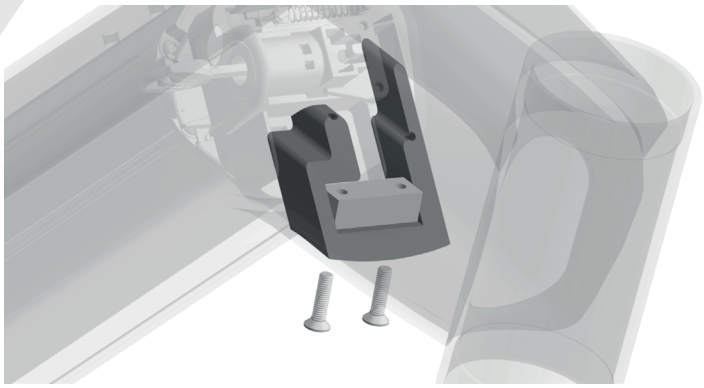
289866 BGM SBB Lower battery bracket 22



In addition to this frame part, you will need the following from Bosch.

Damper Foil Poron Plug for BBP37xx	**1 pcs**	**Bosch EB12.100.01Z**
Screw for Frame Base M4x16	**4 pcs**	**Bosch EB12.100.01X**
Cradle BBP37xx	**1 pcs**	**Bosch EB12.100.01U**
Battery Adapter 2 (2 plug-in locations for battery cable)	**1 pcs**	**Bosch EB12.100.015**
Clamp Ring for Battery Adapter 2	**1 pcs**	**Bosch EB12.100.02D**

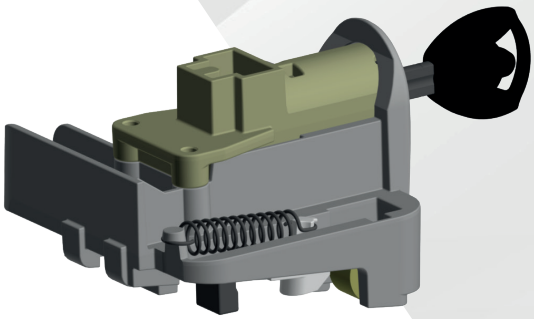
289867 BGM SBB upper battery bracket 22



In addition to this frame part, you will need the following from ABUS and Bosch.

4pcs Screw for frame base **Bosch EB12.100.01X**

ABUS BLO SCO IT2 XPLUS Abus part no: 67058



294547 BGM SBB upper battery bracket block 22

The frame has a SCOTT Specific Charging port:

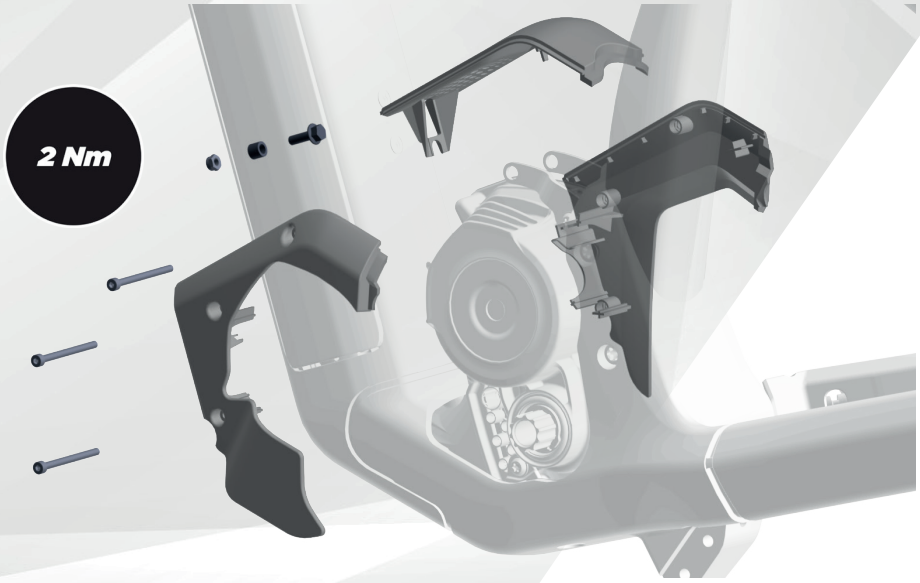
290045 SCO eRIDE Charge port Axis Evo 22

Please note that this part does not include the Bosch connectors, **1270.016.119 and EB12.120.02D**, they must be purchased separately.

Drive Unit:

There is a special cover kit, for the drive unit:

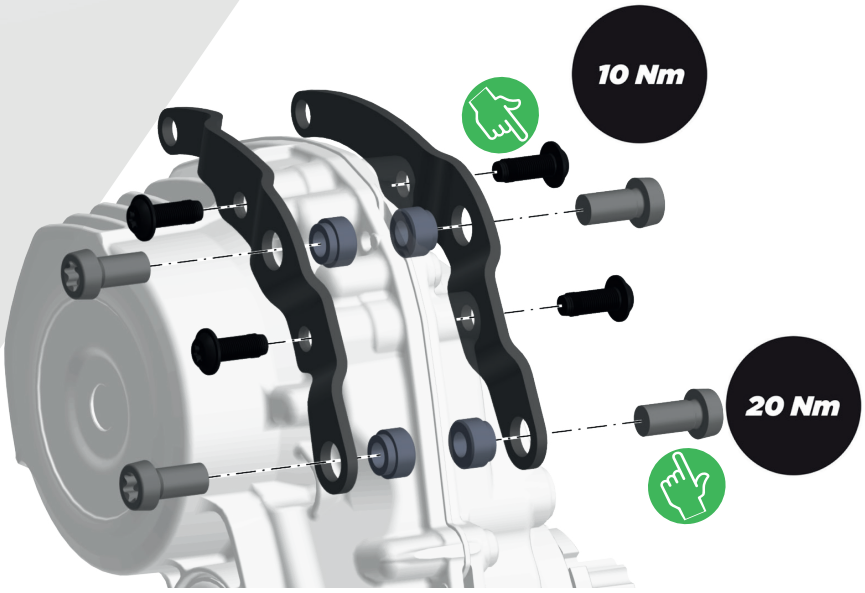
290047 SCO eRIDE Motor cov Axis Evo 22



The kit includes the screws. 3pcs of M4x60mm HEX 3mm and 1pcs of 5x16mm HEX 3 mm and all spacers.

We share with Bergamont the upper and lower motor mounts:

289868 BGM upper Engine mount SBB 22



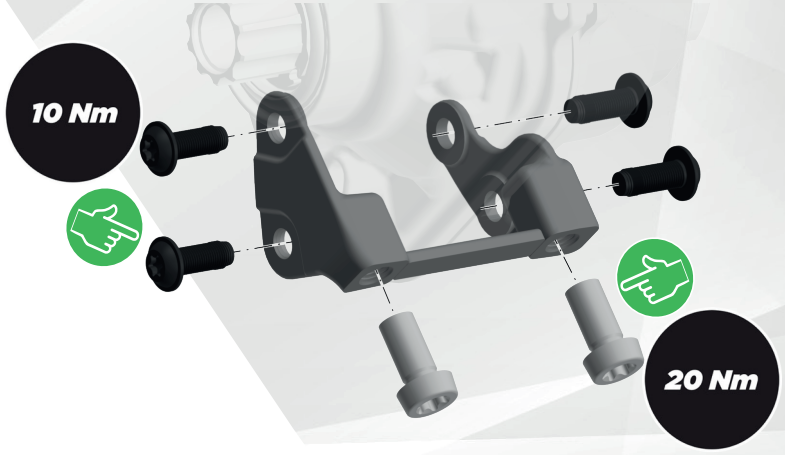
Bolts are not included in the kit. But are available from BOSCH.
Frame to bracket screw (T40, M8x16mm) **Bosch 1270.016.470**. 4pcs
Bracket to drive unit screw: **Bosch EB11.200.00P-97**. 4pcs

289869 BGM bottom Engine mount SBB 22

This kit does not include the four motor screws T40, M8x16mm. and the two bottom head screws. They are available from Bosch.

Frame to bracket screw **Bosch 1270.016.470.** 4pcs

Bracket to drive unit screw: **Bosch EB11.200.00P-97.** 2pcs



Cockpit:

This frame features integrated cable routing through the headset and headset spacers.

Headset: **291720 BGM Headset E-Revox Premium 22**

The BGM headset comes with spacers, they do not fit the SCOTT stem and frame. Please use the SCOTT specific spacer kit

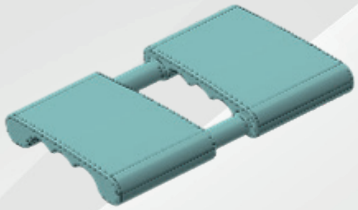
Headset Spacer Kit: **Part Number to Follow***

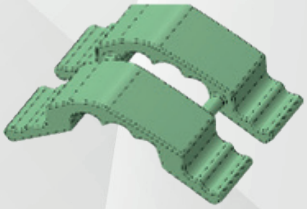
Stem: XXXXXXXXXX

We will have in black stock the Kiox and light mount.

This frame features some internal cable guides inside the downtube for a smooth cable routing along the battery.

289871 BGM Premium Cableguide for 7 22





289870 BGM Premium Cableguide for 3 22

Here are the cable guide exits for the rear brake and rear derailleur:

291669 BGM Cableguide Chainstay E-Revox Prem 22

The Speed sensor cable and holder **Bosch EB11.200.012 // 1270.016.038** is guided inside the chainstay and has got no special cable guide exit.

The chainstay protection kit is shared with BGM:

289855 BGM E-Horizon Premium Chainstay Prot 22

We have the following kit for fenders and rear rack:

291707 BGM Carrier Grandurance rear 22
291732 SCO eRIDE Fender Sub Evo 22
278386 SCO eRIDE Kickstand Sub 20 Wty

These are only to be used for warranty purposes. Please also note that the fender will need some modification and drilling of extra holes to fit with the rear light.

Crash Replacement Program SUBS

We are experiencing a very high demand for warranty frames for crash replacements. We are happy to help when we can, but with the special times now, we are experiencing extremely long production / lead times including delivery postponements, we need to make sure we have enough frames in stock to cover actual warranties, this is the main purpose of having the warranty frames blocked.

If you have request for crash replacements orders of frames, carbon rims and carbon handlebars. Please always follow the rules:

1. Always create a B2B claim. In SAP, delete the claim by setting deletion flag.
2. Always check the workbook to sell a new sales frame from the frame chapter. Even if the sales frame has got fork/shock this must be the first option and usually the extra costs are covered by the customers insurance anyway.
3. Check with carbon repair workshop in your domestic market. Many carbon fibre damages can be professionally repaired. Please note that SCOTT does not take any responsibility from the repair and the repaired area is no longer covered under warranty.
4. If point 2 or 3 cannot be used, please check our blocked account in SAP and as well MB51 and see the movements of the frame. We will not release a warranty frame for sales if we have lots of movement in stock. Always check older MY frames first.
5. Send a request to EUQM team with your request, including the deleted claim number. We are happy to help if we can, but we will start to reach more claims as we simply need the frames for warranty.
6. A sold warranty frame is already set with a low price. Do not give away any discount on a sold warranty frame.

We are usually always happy to help offering the end consumer a crash replacement frame, but we always need to make sure we have enough frames in stock to cover actual warranties, this is the main purpose of having the warranty frames blocked.

Riding Conditions

BICYCLE RIDING CONDITIONS

Conditions	1	2	3	4	5	6
Description	Bicycles and Epacs used on a regular paved surface where the tires are intended to maintain ground contact at average speed	Bicycles and Epacs that includes Condition 1 as well as unpaved and gravel roads and trails with moderate grades. In this set of conditions, contact with irregular terrain and loss of tire contact with the ground may occur. Drops are intended to be limited to 15 cm or less	Bicycles and Epacs that includes Condition 1 and Condition 2 as well as rough trails, rough unpaved roads, and rough terrain and unimproved trails that require technical skills. Jumps and drops are intended to be less than 60 cm	Bicycles and Epacs that includes Conditions 1, 2, and 3, or downhill grades on rough trails at speeds less than 40 km/h, or both. Jumps are intended to be less than 120 cm	Bicycles and Epacs that includes Conditions 1, 2, 3, and 4; extreme jumping; or downhill grades on rough trails at speeds in excess of 40 km/h; or a combination thereof	Bicycles and Epacs that includes Condition 1, to be used in competition or otherwise at high speed in excess of 50 km/h such as descent and sprinting
Intended average speed range (km/h)	15 to 25	15 to 25	Not relevant	Not relevant	Not relevant	30 to 55
Intended drop/ jump height (cm)	< 15	< 15	< 60	< 120	> 120	< 15
Intended riding purpose	Commuting and leisure with moderate effort	Leisure and trekking with moderate effort	Sportive and competitive with moderate challenging technical trail features	Sportive and competitive with highly challenging technical trail features	Extreme sports	Sportive and competitive with intensive effort
Type of bicycle (examples)	City and urban bikes	Trekking bike, travel bike	Cross country and marathon	All mountain, trail	Downhill, dirt jump, freeride	Road racing, time trial, triathlon

SCOTT-SPORTS.COM

B2B CLAIMING RULES

Online Warranty Program Key Points

We will ONLY accept warranty claims submitted through our B2B warranty system for Bike frames (including linkage bars, swingarms and rigid forks). Always use the bike frame number for all claims.

- Syncros Carbon rims
- MAHLE components (always use the mahle S/N for all claims)
- Bike shoes
- Bike helmets
- Bike Body protection

We will NOT accept claims for the above mentions product groups in any other way.

Make sure the following is correct before entering a claim:

- Use correct images that clearly shows the damage, proof of purchase, complete product, and S/N. All images need to be in good quality, pin sharp and in focus.
- Make sure the correct damage location and damage type is used.
- Make sure the entered S/N is correct and corresponding to the S/N of the bike.

All claims with faulty or poor images or wrong damage location or damage type will be deleted.

See the "how to" manual and examples from previous years techbooks.

SUBS:

Do NOT use QM01 for above mentioned product groups.

USE QM02 to double check all claims have the correct good quality images and the correct damage location and damage type. If the claim is not 100% accurate, please set deletion flag and tell the dealer to re-enter the claim correctly. Do NOT, change images in the claim.
As well as ensuring the claim is correct, make sure the correct replacement frame is used. If a different replacement frame model from the claimed frame model is used the factories will reject the warranty claim.

Warranty claims of minor paint or cosmetic damages or other minor defects, should not be considered a priority to be replaced with a new frame.

The claims still need to be in B2B, and not to be compensated with a ZKL1 of a pair of shoes or a helmet. Always compensate with a credit note (213542). The amount should always reflect the damage, damage location and the price of the bike. Always write discount and the price and currency in the text field in QM02.

For small parts warranty. Use only QM01 and/orZkl1.

Distributors:

For Syncros, Accessories, and small Bike Parts please use the excel forms. Please contact the QM Team for these forms if you do not have the USB Drive which
comes with this techbook.

Please make sure to forward bi-weekly or monthly excel forms.
For all claims and general questions please use only eu.qm@scott-sports.com

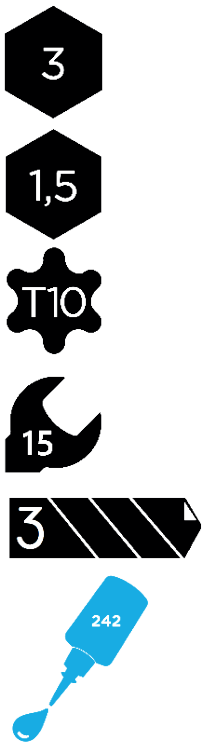
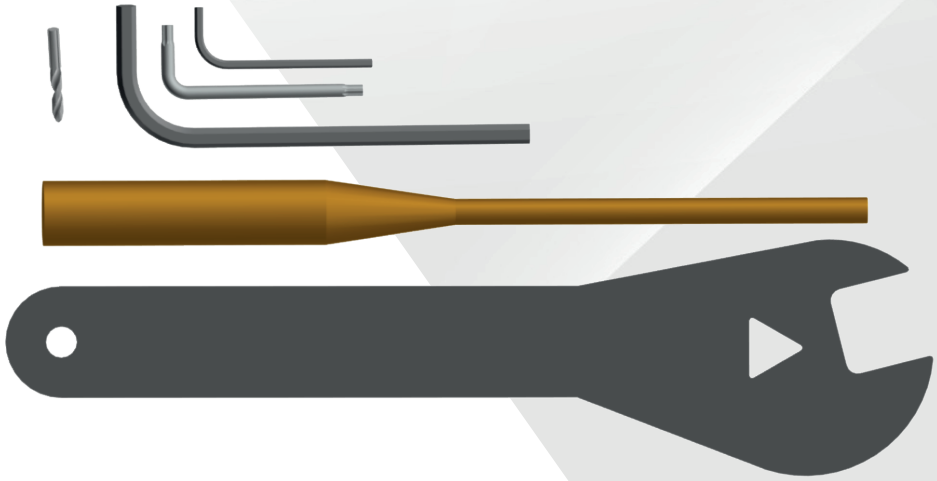
TWINLOC CAM CHANGE

What you will need:

- Twinloc Kit (290009)
- 1.5mm Hex Tool
- 3mm Hex Tool
- T10 Torx Tool
- 15mm Cone Spanner
- 3mm Metal Drill Bit
- Soft Pin Punch
- Loctite 242





01

Use a 1.5mm Hex tool will loosen the upper dust cover bolt.

1.5

02

Remove cover.

03

Use a 15mm Cone Spanner for the nut between the dropper lever and Twinloc activation lever.

15

04

Use a 3mm Hex tool to loosen bolt.

15

3

05

Remove the dropper lever.

*Reverse steps 3-5 to assemble Dropper Lever, use Loctite 242 on the central bolt.

06

Use a T10 Torx tool to loosen the forward mounting screw.

T10

07

Remove the barrel adjuster support assembly.

08

Configure the desired support assembly and barrel adjusters

09

Assemble the Twinloc.

10

Use a Torx 10 tool to loosen the cam bolt.

Blue to Green change.

T10

11

Disassemble the blue cam and remove the gold washer and bolt.

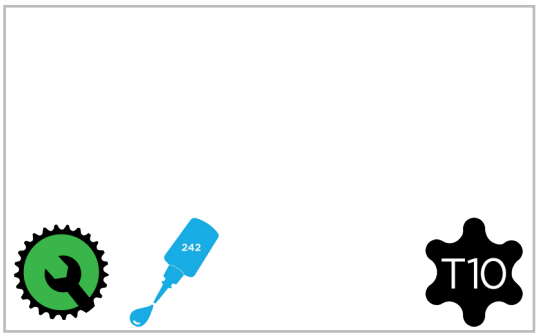
T10

12a

Assemble the green cam with washer and use Loctite 242 on bolt. (take care not to get Loctite on the washer)

12b

12c



15

Gold Cam.

Use a 3mm drill bit to open the pre-existing hole, only half of the depth should be drilled. Do not drill all the way through. Drilling is not necessary but recommended for an easier installation.

16

Drill half way only!

17

Finger press the pin into the hole.

18

Place the Twinloc on a soft support and tap the pin into place with a soft punch.

19a

19b

Assemble the gold cam with washer, and use Loctite 242 on the bolt. Ensure the hook on the gold cam is mounted the correct side of the pin.

19c

20

242

T10

Fit any needed cables and assembly the Dust Cover.

1.5

BATTERY STORAGE, TRANSPORT & SAFETY

PLEASE MAKE SURE YOU EDUCATE YOURSELF AND THE CUSTOMER ON SAFE BATTERY PRACTICE.

THIS WILL BE DIFFERENT FOR END CONSUMERS AND COMMERCIAL DEALERS.

The end consumer must be made aware of:

- How to look after and recognise any issue with his or her battery
- The correct way to store the battery
- What to do if any damage occurs to the battery
- How to transport the battery

BATTERY STORAGE, SAFETY AND TRANSPORTATION

MAIN SAFETY POINTS TO REMEMBER:

- Never leave the battery in direct sunlight at high temperatures for long period of time; this includes shop windows and leaving in the car.
- Extremes of temperature, hot or cold will have an effect on the life of the battery, protect against these parameters.
- Do not transport the battery on the bike if on a vehicle bike rack, this goes for the complete e-bike system. Water pressure from rain circulating behind a car whilst the e-bike is on a rack can easily exceed any pressure washer. (**do not pressure wash an e-bike system**) If you need to transport this way make sure the drive system is protected/covered completely.
- If you notice any damage to the battery, assess and inform your e-bike battery supplier. **Do not try to fix the problem, remove the casing or cover with protective tape**.
- Always remove the battery from the e-bike before doing any work on it.
- Store the battery in a well ventilated cool area away from any flammable items, acids and flammable liquids
- **Double check your insurance covers you for the storage of Lithium-ion batteries**.
- Install smoke alarms.
- Protect the battery from accidental impact, water and excessive humidity.
- Find a good storage solution (information on a storage solution is later in this chapter)

If you think your battery is damaged or the battery becomes hot, starts to emit smoke or odors you must not try to transport the battery in any way. Immerse in water completely, continue to add water, contact the Fire Service.

Alternative for all commercial businesses you should make sure you have a sand box big enough to easily cover the battery in sand (below) to remove the oxygen supply from the battery. Inform the Fire Service.

The following ADR information will help to educate you on how to transport separate batteries for Commercial Businesses. (Some tunnels in Europe even have restrictions on the number of batteries allowed for commercial business).

Batteries transported connected/installed in the bike are not classed as dangerous goods, but having precautions in place for a large number of bikes is prudent and good practice.

Private transport of batteries is different from Commercial transport, no ADR requirements needed for Private Transport. Commercial transport includes events and inter-company transport in a business vehicle or similar.

TRANSPORT OF HAZARDOUS MATERIALS ACCORDING TO ADR

Those participating in the transport according to ADR

- Packager
- Loader
- Carrier
- Driver
- Unloader
- Recipient

- All persons involved in the transport must be trained in accordance with Chapter 1.3 ADR in relationship to their work and area of responsibility.
- Training must be provided before relevant duties are assumed; otherwise supervision by already trained personnel is required.
- Written records of the training must be maintained and submitted to the authorities in charge upon their request.
- Compliance is strictly enforced by commercial regulatory authorities. Severe fines are imposed for violations.

ADR transport document

- Document must be handed over to the carrier or the driver.
- No formal requirement, but clear rules for obligatory content:
  - Complete address of the sender and recipient
  - Complete and correct description of the content in the exact order specified
  - **IMPORTANT**

A copy of the transport document must always be saved on file for 3 months!

☐ For Sea Freight: IMO Declaration / Declaration of the Sender Responsible Maritime

Herewith I confirm the regularity and completeness of the specifications given above.

3

Name in Capital Letters

Signature of Sender

Effective 01.01.2011

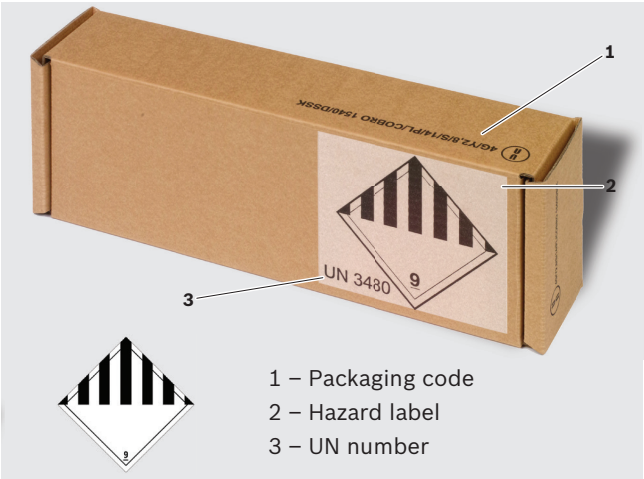
Obligations on the loader according to Chapter 7.5 ADR

- Handover of the transport document to the vehicle driver (must be carried throughout the entire transport)
- Inspection of the transport vehicle before loading:
  - Vehicle appears to be in good condition and clean
  - Sufficient load securing equipment (no movement of the goods being shipped possible)
  - Minimum of 2-kg ABC fire extinguishers available which are sealed with current test date and easily accessible
- Loading not permitted if there are deficiencies!
- IMPORTANT

No smoking during loading!

Packaging of lithium-ion batteries as dangerous goods

- Classification: Lithium ion batteries with more than 100 Wh
- Class 9: Miscellaneous dangerous substances and objects
- Dangerous goods description: Lithium ion batteries
- UN number 3480 (internationally valid)
- Mandatory hazard label for shipment as shown in the following example



1 – Packaging code
2 – Hazard label
3 – UN number

Obligatory guidelines for packaging

- Shipping only in type-approved packaging with correct labelling
  - Undamaged used packaging can be used again.
- Protect against damage
- No room to move, if required, surrounded by cushioning material that is non-combustible and non-conductive
- Observe the max. gross weight per package (2.8 kg for packaging)
- Recessed battery terminals and protected against short circuiting

Shipping of multiple batteries if batteries are to be shipped with other goods (e.g. drive unit)

- One dangerous goods box per battery.
- Prevent the batteries from damaging each other (content must remain intact when dropped from a height of 1.2 m).
- Outer packaging must be sufficiently stable and undamaged.
- Outer packaging must be marked with the letters “outer box” and labelled with hazard label and UN number
- **IMPORTANT**

The correct outer packaging informs persons involved in the transport and enables them to take immediate and proper action in case of an emergency.

- **IMPORTANT**

Not all package couriers will transport hazardous materials! Please check beforehand with your courier.

in case of questions our trained and authorized colleagues of DC Aubange may help and give you advise, but they cannot issue or sign the documents for you.

jean-francois.thiry@scott-sports.be (director)

julie.wagner@scott-sports.be

isabelle.neri@scott-sports.be

pascal.lamer@scott-sports.be (dispatching)

Your local forwarder should also have in-house DGD specialists being able to assist you.

Shipment per post mail : the regulations can vary from one country to the other, so you have to inquire locally

Shipment per courier (Fedex, UPS, etc) : is subject to special authorizations, so it’s better to ask your local provider.

LEGAL

PRODUCT LIABILITY PROCEDURE CHECKLIST

All written information should be provided in its **original language**. If the information is in a language other than English, German or French, please also **translate** it into one of these three languages for faster processing.

ONLY with the explicit prior permission of SCOTT should you send the evidence back to the claimant. **Please NEVER THROW IT AWAY!**

Please provide:

1. The claimant's **address, phone number** & email.
2. The **proof of purchase**.
3. A **memo** with the following information:
   - **What** happened and **who** was involved?
   - **When**, **where** and **why** did the incident happen?
   - What is the general **appearance** of the product?
   - **Detailed product information**, e.g. frame number, model, etc.
4. Confirmation of the product's periodical **maintenance and service history**.
5. A short **summary of how the product has been used** since it was purchased.
6. The **complete written correspondence** of the claimant, particularly medical certificates, technical expertise, etc.
7. **SHARP, GOOD QUALITY photos** of the defective product from all sides showing the defects as clearly as possible;

   OR

   If the claimant does NOT provide the defective product for examination, then provide the name and address of the location where the product may be examined by us.
8. Careful **storage of ALL pieces of evidence**, particularly the defective piece.

ALWAYS REMEMBER:

1. **NEVER make comments or statements** concerning the **reason** for the **product failure** to the claimant or the dealer!
2. **ALWAYS behave in a customer-friendly manner** with the claimant! (active listening, sympathy and concern, etc.)
3. **ONLY SCOTT Headquarters will handle communication** with consumers / lawyers / insurance companies!

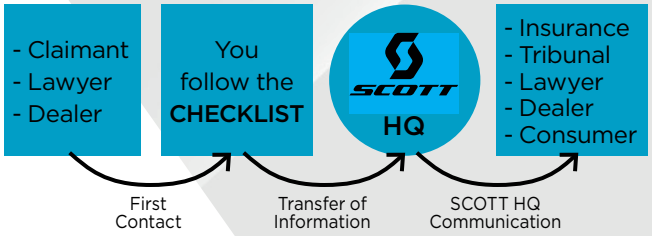
PROCEDURE IN PRODUCT LIABILITY CASES

PRODUCT LIABILITY

Definition:

- Product liability law governs manufacturers' liabilities in case a defective product (a product is defective if it does not provide the safety which a person is entitled to expect from it) leads to personal injury or damages to objects other than the defective product

Procedure:



SCOTT Headquarters SOLELY handles product liability cases.

CUSTOMER COMMUNICATION ON SOCIAL MEDIA

BASIC PRINCIPLES

1. Always stay positive

- Deal with all customer complaints offline = email, phone, face to face
- Avoid customer service online by all means
- Don't post any opinions
- Don't engage in negative discussions at all
- Keep answers clear and short

2. Always pause and think before posting

- Always think twice before hitting 'send'; consider what could happen when you publish information. When in doubt, do not post!
- Double check content, tone, and grammar

GOLDEN RULES

1. Use Common Sense

- Talk to your readers like you would talk to real people in professional situations.
- Be respectful but casual.
- Don't engage in a customer service discussion online.
- Let negative or aggressive posts stand and monitor.

2. Protect SCOTT Sports and yourself.

- Anything said can be picked up by fans, competitors, stakeholders, analysts, hackers, and the media. There are people looking for such information 24/7.
- Respect confidentiality, never post internal or classified information.
- Never post anyone's personal details without consent (not even a name).

3. Take Responsibility

- Be responsible for what you write. Posting on the page means that you represent the SCOTT company.
- Everything you say as an employee is accessible and searchable – even if you delete it afterwards.
- Tell the truth. If you make an error, be up front and honest about your mistake.
- Your honesty or dishonesty will be noticed quickly.
